Lots of FUN Lots of WORK

Yes, it IS lots of fun with baby... but it means lots of extra work, too. Laundering is one of the hardest tasks of all — and we can lighten that added burden so easily and so cheaply. It will mean more hours of pleasure with baby, too, and more energy for mother to enjoy the little tot to the utmost!

SHAMEFUL STATE OF INSTITUTIONS TOLD BY FARRELL

Secretary of State in Chamber of Commerce Talk Urges Vote For Funds.

No Oregon resident can rightfully "hold up his head" because of the shameful overcrowding and other deplorable conditions at the various state institutions said Robert S. Farrell, secretary of state, at an open meeting of the Jackson County Chamber of Commerce Friday at the Holland Hotel. Farrell urged his listeners to vote for the bill authorizing a tax levy for a state building fund at the special state election June 22.

Prefacing his remarks by an explanation of the state's basic tax system, Farrell emphasized the fact that the money needed to enlarge and properly equip the state's institutions is already on hand but that due to the mechanics of the state income tax law and the six per cent limitation law, voters must authorize the special levy which in reality they will never pay because the existing income tax money offsets it.

Program Explained
Explaining the contemplated building program, Farrell said that it would be in the nature of a post-war program and would include new buildings needed for the state's educational institutions as well as new buildings and enlargements for such institutions as the state hospital, the state schools for boys and girls and the Fairview home for mentally deficient persons.

Making an example of the boys' training school, the state official declared that this is so overcrowded that boys can be admitted only when an equal number are discharged. The state hospital for the insane has 200 more patients than it was built to accommodate, and patients even sleep in the halls, Farrell said. Fairview has 100 more than it should be required to care for and a large waiting list, he added. "In Oregon we don't think how much can we do for these unfortunate wards of the state," he said, "but how little we can do for them."

No Boondoggling
Farrell further explained how the ten million dollar building fund would be administered and assured his audience that there would be "no boondoggling." Previously the state officer had declared that he believed federal funds should be used for only two types of projects, highways

and forest programs, and that otherwise the state would be self-sufficient.

The state now has a fund of \$15,625,221, Farrell said, of which five million has been set aside "for a rainy day" and ten million of which is surplus and cannot be spent without authorization by the voters, which is asked in the special election. "In order to use this surplus, the voters must vote a ten mill levy on real property, five mills this year and five next year," he explained. "The tax commission will levy the tax and then the income tax surplus may be used to wipe the tax out. The legislature cannot authorize the use of the income surplus because of the six per cent limitation law. This levy will be merely the mechanical device for making use of the existing money. You are not voting additional tax collections on your property."

Development Reviewed
The state official opened his talk by reviewing state development phases, speaking of a timber program in the Scappoose district, of the land "blocking" program in the Malheur county area, of oil and natural gas development projects near Clatskanie and of the Coos Bay coal operations.

Farrell was introduced by Herb Grey, president of the Chamber of Commerce, who also introduced Harry Schenk, assistant secretary of state, Clarence Ellis, manager of the department of financial responsibility, who accompanied Farrell here, and other visitors from all parts of the valley.

Preceding Farrell's talk various chamber committee chairmen reported on current projects and problems.

Student Loan Fund Applicants Urged To Hurry Filings

Blanks for making application for the new student loan fund set up by Harry L. Holmes and David H. Holmes, for Jackson county boys who are graduates of this county's high schools, may be secured from the county school superintendent's office in the court house, or from the principal of the high school from which the boy graduated. A local board to pass upon the applications has been set up with County School Superintendent C. R. Bowman as secretary.

Boys interested in taking advantage of the loan should make application as soon as possible, according to Bowman, in order to give the board ample time to check and act upon applications before opening of school in the fall.

Only Jackson county boys are eligible and the fund may be used only for attendance at schools under the Oregon Board of Higher Education.

Methodist School Program Tonight

A program and display of work done by the Vacation Bible school will be presented at 7:45 tonight at the Methodist church, West Main and Laurel streets. The school closed Friday with a picnic at Jackson Hot Springs. The program tonight will feature flannelgraph work by the pastor, Dr. L. C. Kirby; new songs, taught by Mrs. Clarence Meeker; Bible and handcraft under direction of Mrs. John Carter, Mrs. Arlie Walker, Mrs. W. T. Frost, Mrs. Sam Gay and Mrs. Alice Holman. The public is invited.

The school, with enrollment of 230, was under direction of Mrs. Louis C. Kirby.

QUARTERLY MEET OF RED CROSS

Eighteen members from Klamath Falls, Tulelake, Medford and Camp White attended the quarterly meeting of the Siskiyou camp and hospital council of the Red Cross held in Medford Thursday. Miss Hilda Merritt, field representative for college units from the area office in San Francisco was also present.

Council problems were discussed and future projects planned, with P. S. Hitchcock, Klamath Falls, council chairman, presiding. Others present at the meeting were Miss Louise Sullivan, P.S.C. staff member, and Walter S. Bird, field director of the Red Cross, Marine barracks; Mrs. H. E. Getz, Mrs. D. H. Osborn and Innis Roberts, Klamath Falls, and Lt. Wayne M. Holmes, Camp Tulelake.

From this district those attending were Mrs. Thomas L. McCullough, Mrs. Leonard Carpenter, Miss Vera Humphrey, Mrs. Fred Rankin, Seth Bullis, Mrs. Rawles Moore, Mrs. Carol Parker, Mrs. O. A. Eden, Mrs. N. B. Bender and Mrs. Alfred S. V. Carpenter.

WHAT... NO BLOW-OUT?

"SPIKE TEST" PROVES RIVERSIDES' 12% STRONGER PLIES GIVE GREATER BLOW-OUT PROTECTION

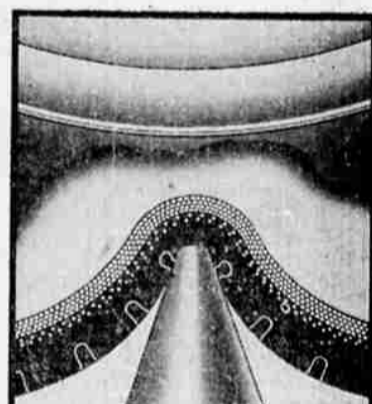

TESTS LIKE THIS ONE...

made in the test-laboratory of the huge factory that builds Wards Tires. This big steel spike actually "buries" itself deep-in... as the tire rolls over it!

RIVERSIDES CAN "TAKE IT"!

A huge spike is "shot" like a projectile, into the spinning Riverside Tire. This big steel spike actually "buries" itself deep-in... as the tire rolls over it!

WHAT HAPPENS INSIDE?

This X-ray view shows the spike "in" the tire. The tire has shaped itself around the spike! Yet... there's no blow-out, not the slightest damage to the tire!

Laboratory and road tests, alike, prove that Riversides are now even stronger than pre-war first-quality Riversides! Every ply is stronger, because each cord is stronger to begin with; then chemically-strengthened to stay stronger longer! But that only half-explains Riversides' greater strength! The cords are next immersed in a "bonding" solution that "welds" them together! In the final operation, the cords are cushioned between two layers of rubber. The result—a STRONGER ply, which is further strengthened when it is cemented to other plies of similar-strength to make a safe "tire-body." In Riversides, every precaution is taken to provide protection against separation and blowouts!

THAT'S WHY WE SAY MORE MILES-OF-SAFETY ON "RIVERSIDES"
