Judy Garland, Capt. Augur Headline Big Bond Premiere

Wednesday evening brings to the stage and screen of the Holly theatre Medford's Mighty Seventh War Loan Bond Premiere. Presenting in person on the stage Captain Robert F. Augur, of Portland, guest speaker of the evening. Captain Augur is a veteran of the Corregidor campaign; lost his left leg on Corregidor and spent 33 months as a prisoner of the Japanese in the notorious Bilbilid prison of Manila. Captain Augur is the holder of many service awards and is star speaker for Oregon's 7th War Loan Drive.

Judy Garland and Robert Walker, Metro-Goldwyn-Mayer's new romantic team star in "The Clock." It is the tender, heart-warming story of the romance between Bob, as a soldier in New York City for the first time, on a 48-hour pass, and Judy, as a lovely girl who takes the lonely service man to her heart.

Directed with genuine understanding by Vincente Minnelli,

who made "Meet Me in St. Louis," and handsomely produced by Arthur Freed, "The Clock" is destined to be a screen favorite. An outstanding supporting cast is featured in the attraction headed by Keenan Wynn, James Gleason, Ruth Brady and Marshall Thompson. Other short featurettes will complete the program.

Free Bond Premiere tickets may be secured by buying a series "E" bond, at any Jackson County Issuing Agency and taking them to the First National Bank, United States National Bank or the postoffice, all of Medford. All bonds bearing the dates of June 14 through June 20 are eligible for free bond premiere tickets. Or may be secured at the Holly theatre the night of the show. Only one ticket per bond will be issued and there are no reserved seats. Doors of the Holly will open at 7:30 p. m. and the show will start at 8 p. m.

STANDARD OF CALIFORNIA

USE
DN-111
on pear trees

DN-111, a water soluble salt of Dinitro-cyclohexylphenol, has been thoroughly tested and proven by three years of successful commercial use for the control of Rust Mites and Spider Mites in the Rogue River Valley. Not only is the initial kill extremely high but due to its prolonged toxic action the product remains effective for several days, thus giving the opportunity for a thorough and complete clean up of the pest. While in most cases one application is sufficient, two applications may be found necessary in orchards where late colonies of spider mites have become established.

DN-111 can be used as separate spray without spreaders, stickers or wetting agents, or it may be used in combination with lead arsenate by the addition of Colloidal Z-1 Spreader. Its use will not interfere with or complicate any coddling moth spray program if properly timed nor complicate the subsequent removal of spray residue from the fruit.

DN-111 applied as directed by your County Horticulturist or local Dow dealer will give excellent results in the control of Rust Mites and Spider Mites.
