## ANY BABY IN AN EMPTY HOUSE

These talks on the question of having a baby will answer, I hope, some of the most frequent inquiries from readers—shucks, we may as well be honest and say wives, for husbands seldom submit such inquiries, although it should be of as much concern to them as it is to wives.

In a good many instances conception does not occur until the third year of marriage. It is generally not advisable to do anything about it before that. If or when anything is to be done about it, since it is a fifty-fifty question which partner, if either, is infertile, both husband and wife should consult the physician. No intelligent wife should assume responsibility if the husband has not consulted the physician for a test of his fertility. It is as stupid as it is mischievous for a wife to submit to any kind of treatment on the assumption that she is the infertile partner, if her husband has not been so examined by the physician.

Now the sensible course for any man and wife who have been married over three years and are still without prospects is, as already explained, to consult a specialist. First the husband should undergo a test for fertility. If the test indicates a normal degree of fertility then, and then only, is it in order for the wife to consult the physician.

If there is any lack of confidence in the ability of the family physician, then the husband

### JACK OREY ONE OF STRAFERS ON JAPANESE RAID

The Philippines—The primary duty of the men who fly the navy's search planes between here and China is patrolling rather than bombing, but they manage to work in plenty of "extra duty" blasting from time to time.

For example, take a recent day's work by one of the new Privateers, of which Jack Orey, aviation radioman third class, of Medford, Ore., is a crew member. Orey is a top-turret gunner of the Privateer, which is attached to an air wing of aircraft, Seventh Fleet.

On this day, Orey's plane knocked off four railroad engines, a Jap bomber, two trucks and a large launch.

After thoroughly covering their search sector, the navy airmen were headed for home, flying along the east coast of Formosa, when they spotted the Jap bomber on an airfield. They sent their four-engine Privateer sweeping in across the field like a fast fighter. The gunners let go with all they had, and the Jap plane burned and exploded.

Meanwhile, two Jap trucks were seen scurrying for safety along the field's edge, and the Privateer's gunners again went to work, destroying both.

The Privateer then followed a railroad track along the coast, sighting a locomotive puffing along. Orey's crew went in strafing. Their tracers hit home and

### Tired Kidneys Often Bring Sleepless Nights

Doctors say your kidneys contain 15 miles of tiny tubes or filtes which help to purify the blood and keep you healthy. When they get tired and don't work right in the daytime, many people have to get up at night. Frequent awakenings show there is something wrong with your kidneys or bladder. Don't neglect this condition and lose valuable, restful sleep. When disorder of kidney function permits poisonous matter to remain in your blood, it may also cause nagging backache, rheumatic pain, leg pain, loss of pep and energy, swelling, puffiness under the eyes, headaches and dizziness.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.
