

PLENTY OF BEEF ROAMING RANGES STOCKMEN CLAIM

Portland, Ore., June 28—(U.P.) Oregon livestock producers have more beef cattle on farms and ranges than they have had at any one time in 15 years and only ask that government regulations give them a chance to sell the meat, State Director of Agriculture E. L. Peterson told a special directors meeting of the Oregon Food Merchants association.

Peterson said Oregon is producing a heavy surplus of meat for its population.

There are 746,000 head of beef cattle, 436,000 dairy cows, 194,000 hogs and 1,082,000 lambs and sheep on farms in the state, Peterson explained.

He has wired Oregon's congressional delegation that the meat distribution trouble could be eased by cancellation of the custom slaughtering price regulation, adjustment of slaughter quotas, qualifying more slaughter plants for interstate shipment and sales to the army and delegating power to the regional and district OPA so they can take emergency action.

MUCH TIME LOST IN MAY STRIKES

Washington, June 28—(U.P.)—The Labor Department today reported that strikes and lockouts last month caused more lost time than in any May since 1941. Lost time amounted to 26,100ths of one per cent of working time compared to 18/100ths of one per cent in April, 1945 and May, 1944.

The department said that there were 425 strikes and lockouts last month involving 310,000 workers and that man-days of idleness totaled 2,025,000 days. It did not distinguish between strikes and lockouts.

The department said that more than one-half of the idleness resulted from the Anthracite mine strike in eastern Pennsylvania from May 1 to 19.

Portland, Ore., June 27—(U.P.)—The work of the United Nations conference at San Francisco will be polished into a worldwide program that should outlaw future war and bring universal peace, James A. Farley, former postmaster general and Democratic national committee chairman, said in Portland Wednesday.

Peace will be certain, Farley insisted, if the governments of the United States, Great Britain and Russia are able to work together in the future as they have done throughout the war. The other nations then will work in harmony, he said.
