Wall Street
New York, June 29—(UP)—Stocks extended yesterday's losses by 1 to 4 points in a less active session today.

Attempts to rally in early trading failed to generate new buying and the market fell of its own weight with no support except at wide price concessions.

Some of the leading issues swung through wide arcs. Sears Roebuck, for example, touched 116 1/2, up 1 1/4 at the opening. Later it fell 3 1/2 points from the top. American Distilling, another early gainer, dropped more than 6 points from its high.

The whole market continued nervous as traders awaited definite indication of trend. In some instances disorderly dealings developed and in the case of American Distilling it was necessary to halt trading for three hours.

Preliminary closing Dow-Jones averages: Industrial, 164.57, off 1.65; rail, 60.20, off 0.36; utility, 32.72, off 0.31; and 65 stocks, 63.59, off 0.55.

Sales were 2,020,000 shares against 2,940,000 yesterday.

The county ranks at the bottom of those participating in a contest for the ten largest counties of the state, with Washington county at the top with 84.3 per cent of its quota.

Washington, June 29—(UP)—Total sales in the seventh war loan drive skyrocketed to \$21,639,000,000 today to break all previous war loan records.

The total was 54.5 per cent over the \$14,000,000,000 quota. It surpassed the previous record of \$21,621,000,000 in the sixth war loan drive.

CAR SALE BLANKS AVAILABLE AT OPA

Application forms for "authorization to sell" used cars, used trucks and used motorcycles at warranted prices can now be obtained at the local war price and ration board, it was stated today. Sellers must record information about his repair and service facilities on the application and mail it to the district OPA office in Portland before Aug. 1.

The new method has been inaugurated because "in order to protect buyers from illegal charges we must be sure that sellers who charge warranted prices have repair and service facilities which enable them to fulfill the conditions of the warranty," OPA states.

After August 1 the authorization must be displayed in the place of business of the seller and buyers should look for this before they pay warranted prices, it was stated.
