Your Health and It's Care

By DR. WILLIAM BRADY, M.D.
 Readers should address inquiries to: Dr. William Brady, 285 El Camino, Beverly Hills, Calif.

HAMM ER-TOE
 and it says to take thyroid. Please tell me what kind, how much, and how to take it.
 Answer—In my copy I read this on 10: "In no circumstance can I advise whether an individual should take thyroid or what preparation one should take. If you take thyroid at all, better do so under your physician's directions."
 Zinc Fumes
 Constantly exposed to the fumes from burning and welding galvanized steel pipes. What effect will this have on my health?
 Answer—Practically the only ill effect is from possible chronic arsenic poisoning if the zinc being consumed is impure in zinc.
 (Copyright 1945 by John F. Dille Co.)

Dr. Brady is no help in this congenital condition. (F.J.M.)
 If it is merely hammertoe and no other developmental defect, it should respond to treatment as well as hammer-toe in older persons does. Congenital means the child is born with it, and implies nothing more.
 If the toe can be straightened out even partly, a suitable adhesive plaster splint may cure it. Take a strip of adhesive plaster one-half inch wide, five or six inches long, press the toe down nearly or quite even with the toes beside it, apply middle of adhesive strap across the top with adhesive surface up, and apply each end under and around toe on either side. This retains the hammer-toe more nearly in its proper position. The splint may be renewed once or twice a week as needed, but must be worn constantly for many months to effect a cure.
 In numerous instances of hammertoe in youths or young adults dividing the contracted tissues under the skin makes straightening of the toe easier, and then the adhesive plaster may be worn to retain it in straightened position.
 Unless some feature of the case which your letter does not make clear defers them, the doctors who said nothing can be done for the child's hammer-toe would seem unduly pessimistic.
 Go ahead and try out the adhesive tape splint and I'll wager you will cure the hammer-toe in a year.

QUESTIONS & ANSWERS
 A Book for a Doctor
 In reply to numerous requests, I (Brady) suggest either of these books as a suitable gift for any doctor who hasn't the book in his library.
 Best and Taylor's PHYSIOLOGICAL BASIS OF MEDICAL PRACTICE, published by Wm. Wood & Co., Baltimore.
 Duncan's CHEMISTRY OF METABOLISM, published by Saunders, Philadelphia.
 Either book costs about ten simoleons, and is among the few medical textbooks published in recent years that are worth the price, in my opinion.
 Your book dealer can get these books for you or have them sent to the doctor with your card.
