

MEAT SHORTAGE, NOT OPA TO BE ANDERSON'S FOE

Washington, July 3—(U.P.)—Secretary of Agriculture, Clinton Anderson is going to fight the meat shortage, not the OPA, with the extra power granted him by congress, he revealed today.

Anderson told reporters that on Monday, his first official day on the job, he conferred with Price Administrator Chester Bowles about possible effects of amendments to "the OPA extension bill, signed by President Truman over the week end.

The bill gave Anderson greater power than held by any of his predecessors. Among them was the authority to allow small slaughterers to ship meat across state lines and lift present slaughter limitations.

Beef Waste Seen

These limitations have been blamed for some of the current shortages. The former New Mexico congressman reported that on a recent cross-country tour with his house food investigating committee he found surplus beef "just being wasted." He predicted that exercise of his certifying authority will eliminate this situation.

"Foolishly administered, the amendment would nullify a good deal of the work done by OPA," Anderson declared. "I wanted to assure OPA that I intend to work in conjunction with, not opposition to, the OPA program."

Lord Wright (standing, center), chairman of the United Nations War Crimes Commission, reveals in London meeting that commission has indicted 2657 war criminals on charges made by various Allied governments, not including the Russians. Wright asserts war had been marked by "deliberate and systematic cruelties and atrocities" such as no other war had witnessed.

War Crimes Commission Indicts 2657

Spring lambs sorted 14.25; choice medium to good 12-13.00; good slaughter ewes No. 2 and No. 3 pelts 5.75-6.00; common to medium kinds 3-4.50; common to medium feeding lambs 8.50-9.50.

GOVERNORS MOVE TO SPEED ACTION ON UNCIO CHARTER

Mackinac Island, Mich., July 3 (U.P.)—Governors of 42 states moved today toward speedy action on the San Francisco charter under the whip of Cmdr. Harold E. Stassen's appeal for united national support.

Discussion and approval of the charter were scheduled for July 4th as the national conference of state executives sped through routine study of how to revitalize small business and agriculture.

Stassen, former chairman of the conference as governor of Minnesota, left with the governor's his recommendation that the San Francisco charter be established as "the policy of the 48 states."

Addressing the 37th annual conference last night, Stassen called for its universal support as a medium of keeping the world at peace "for at least 50 years."

Stassen said there was no reason why the world pact could not be the basis of enduring peace.

Emphasizing that the U.S. must lead the way, he declared that "the peace loving nations do not fear the power of the United States; the aggressors do fear the power of the United States."

"And so must it ever be," Stassen left today for a holiday in Minneapolis, from where he will fly to Washington to report to President Truman and the state department.

Greenland G.I.'s Awaiting Rescue

Narsarsuaq, Greenland, July 3—(U.P.)—Eleven American soldiers have been trapped since Jan. 8 at a remote weather and radio outpost in Skjoldungen on the bleak east coast of Greenland, it was revealed today by Col. Eugene H. Rice, commanding officer of the Greenland base command.

The command still is awaiting the late Arctic spring to bring the 11 out by boat or plane. Early attempts at rescue by boat failed.

CHERRY HARVEST ON; SHIPMENT RULE TOLD

Picking of the Bing and Royal Anne cherry crop started yesterday and harvesting is expected to last until the middle of the month. Growers have been advised by the county agent's office they are not permitted to transport cherries to northern California points without a California permit.

The early and more advanced tomatoes are now developing on the vine. Assistant County Agent C. B. Cordy reports. Under present weather conditions tomatoes are progressing favorably.

'TO HELL WITH BILBO' MASS MEETING THEME

New York, July 3—(U.P.)—The office of Rep. Adam Clayton Powell, D., N. Y., announced today that the People's Committee of which he is chairman will hold a "To Hell with Bilbo" mass meeting at 3 p. m. next Sunday at the Abyssinian Baptist church.

The target of the meeting will be Sen. Theo H. Bilbo, D., Miss., who has opposed the Fair Employment Practices Committee bill in congress.

JAP ADMIRALS DIE

The Domei Japanese News Agency, reworked by the FCC today, reported that the Yokosuka Naval Station had announced the deaths of Rear Admirals Yasuatsu Suzuki and Yoshiro Kato. No details were given.

GOODLING SPRAY IS ADVISED NOW

The fourth cover spray for the control of codling moth on pears and apples should be completed on July 20, according to L. G. Gentner, entomologist of the Southern Oregon Experiment Station, and C. B. Cordy, assistant county agent.

They advise use of three pounds arsenate of lead or three pounds Cryolite, quarter pound colloidal 77 and one quart stove oil per 100 gallons. Add to partially filled tank in order listed. With astringent lead use one-eighth pound Multifilm instead of Colloidal 77.

Where injury from mite is showing, the trees should be sprayed with three pounds arsenate of lead, three-quarter pound DN-111 and one-third pound Z-1 per 100 gallons. Do not use DN-111 for two weeks after mineral oil.

If oil has been used in the last two weeks, use three pounds arsenate of lead, five quarts of summer oil and one-eighth pound Colloidal 77 per 100 gallons of water.

STRIKE HALTS GRAIN

Minneapolis, July 3—(U.P.)—Grain shipments into the Twin Cities were banned today as a strike of 87 state grain weighers caused increasing congestion of rail traffic.

WEATHER

Northern California — Clear today, tonight and Wednesday except fog on the coast and a few late afternoon thunder-

storms in the High Sierras. Cooler over interior today.

Many a soldier devotes his furlough to day-and-night mechanized operation on the home farm. This is Cpl. Delmar Van Horn, Jr. with his dad at Jefferson, Iowa.

Night Shift ON THE FOOD FRONT

THEY DID IT BEFORE— THEY CAN DO IT AGAIN
With Farmall Tractor Power

Throughout the Spring, from the Rockies to the Atlantic seaboard, worried farmers searched the skies for signs of clear weather, but the cold rains fell relentlessly.

For more than a month the seed should have been germinating in the warm soil. Millions of acres lay unplanted because the ground was too wet for preparation of the seed bed and too cold for germination of the seed.

Only a generation ago there could have been but one outcome—crop shortage and food scarcity. Nature allows scant time for planting when the warm sun waits till late May or June before drying the soggy soil. Horses are too slow and tire too quickly to get the job done then.

But the farmers remember May of 1943—only two years ago—when their fast, untiring tractors averted crop failure. Then, too, rains flooded the fields and the month was all but spent before they could go in on the land and plant.

In 1943, most farmers drove their tractors from dark to dark, and longer. Many planted around the clock, working in two or three shifts. They made one of the greatest crops in history.

In today's war-torn world—with hunger and disease already stalking many peoples—even one major crop failure could bring famine. This is why the sound of tractors and planting machinery was heard, day and night, from the Plains states to the Eastern seaboard—why headlights stabbed the darkness over the fields.

America's farmers are doing it again, in spite of an unprecedented combination of adverse circumstances—bad weather, shortages of machines and shortages of manpower. For the second time in three years, they are relying upon their tractor-powered machines to help rescue large areas of the world from catastrophe. More of these tractors are products of International Harvester than of any other company.
