RIVERSIDES didn't come on my car, I CHOSE THEM

38,621,055 TIMES

the choice was RIVERSIDES

Yes, a grand total of more than 38 million Ward Riverside Tires have been sold. And every last one of them was a "replacement" sale; the careful choice of a person like yourself! Millions of car-owners have chosen Riversides deliberately in preference to the brands that come on new cars... in preference to all other well-known makes of tires! Why? For the same reason that makes so many car-owners switch to Riversides today:—

More MILES-OF-SAFETY ON RIVERSIDES

Today, Riversides are even stronger than Wards pre-war tires! Here's why:—Stronger cords to begin with are chemically-strengthened to stay strong... then liquid-dipped ("welded" together)... next cushioned in rubber! Finally, the plies are cemented together before vulcanizing, for greater protection against separation and blow-outs!
