

SOME OF THE CRIPPLED BOYS & GIRLS WHO WILL BENEFIT FROM THE WASTE PAPER & TIN CAN PICK-UP

Newspapers: Fold them flat (the way the paper boy sells them) and tie them in bundles about 8 inches high.

Magazines and Books: Tie them in bundles about 8 inches high.

Corrugated and Cardboard Boxes and Cartons: Flatten them out in bundles about 8 inches high.

Wastebasket Paper (Wrappers, Envelopes, Etc.): Flatten and pack down in a box or bundle, so that it can be carried.

HOW PAPER AIDS THE WAR EFFORT

It requires 96 tons of supplies for every fighting man across the Pacific. Most of these supplies are paper-wrapped and some are double and triple-wrapped. Why so much wrapping? To prevent the mildew and rot that causes so much loss. There isn't enough paper to supply war and civilian requirements fully.

HOW TIN AIDS THE WAR EFFORT

Our Armed Forces need the tin to protect much of the food sent to our men. In addition, medicines, blood plasma outfits and other items are made wholly or partially of tin. Prepare cans by washing thoroughly, removing labels, turn in or cut off ends and flatten firmly. Pack them in strong containers.

HOW THE CRIPPLED CHILDREN BENEFIT

Manufacturers who process both paper and tin pay for all salvage material. This money usually pays the cost of salvage drives. In this campaign the members of Hillah Temple are contributing their effort and all proceeds will go directly to the Shriners' Hospitals for Crippled Children. You help this worthy cause when you help your Nation!

WASTE PAPER & TIN CAN PICK-UP
Your Groceterias
