186TH REGIMENT SETS RECORD IN PACIFIC THEATER

Headquarters, 41st Division, Philippines—The 186th regiment of the famed 41st Infantry division has made a magnificent record since entering Philippines operations four months ago.

In killing 3,841 Japanese this crack regimental combat team has had 28 of its own men killed in action. This staggeringly disproportionate ratio is 137 enemy slain for each Yank lost. In addition, the regiment has captured 287 Japanese.

On Feb. 28 the 186th invaded Palawan, westernmost Philippine island, and shattered the foe there. Other elements of the 41st struck Zamboanga March 10, and shortly after the bulk of the 186th crossed the Sulu Sea to assist its brother regiments, the 162nd and 163rd.

The 186th then continued rapidly mopping up the Zamboanga peninsula, hunting down Japanese remnants and ruthlessly destroying them.

Originally an Oregon National Guard regiment, the 186th has served in the Far Pacific with the battle-burnished 41st for 39 months. Commanded by Col. Oliver F. Newman of Oakland, Calif., the unit fought two New Guinea campaigns prior to its arrival in the Philippines.

Permanent Farm Labor Camp Eases Milton-Freewater Needs

The most forward step in Oregon in meeting farm labor difficulties, this year as well as in the future, has been taken at Milton-Freewater where, through cooperation with community interests and the state farm labor office in the O. S. C. Extension service, a permanent farm labor camp has been built. The camp at present represents an investment of nearly \$25,000. The development committee hopes to expand it eventually to about a hundred frame structures plus outlets for 50 trailer houses. Shown above is the \$12,000 administration and camp utility building containing two large offices, shower, laundry, toilet and furnace rooms. It is modern in every respect. Below are a few of the neat camp tents which have concrete foundations and floors, ready for construction of permanent quarters later on.
