**A CURE**  
Many people are greatly pleased upon hearing a Latin name for their physical ailment. The same ailment may result from different primary causes. It is not the ailment that is to be treated. It is the individual patient that is to be considered. The condition that has allowed the ailment to manifest must be eradicated. Every doctor knows what ought to be done. But quite an authority has said: "Will he search out the predisposing cause and insist on its removal? Disease from any cause is increased by an impaired state of the nervous system, and if we would have Nature seek a cure we must not only abandon its cause but abstain from every other violation of her laws, that she may be in the best possible state to war with disease."

# MEDFORD SOLDIER GETS POSTHUMOUS AWARD OF MEDAL

Posthumous award of the bronze star to Charles J. Williams, route 1, box 550C, for his son, Marshall K. Williams, technician first grade, who was killed in action in Germany March 23, 1945, was made this morning by Col. John R. Young in his office at post headquarters, Camp White.

Williams was graduated from Medford high school with the class of 1941, and, until his enlistment in the army in 1942, worked at Camp White. He had been overseas since February, 1943. His body was buried in France, according to report.

The citation accompanying the award states: "For heroic achievement in combat on March 23, 1945, in Germany, T/5 Williams was driving an armored car entering the city as the advance element of his platoon, when he suddenly encountered an enemy group of approximately company strength. While the gunner sprayed the street with his machine gun, T/5 Williams drove his car into the midst of the hostile group, until he was suddenly stopped when the enemy pushed a wagon across his path and a bazooka shell hit his vehicle and killed him instantly. By his daring and aggressive action, T/5 Williams assisted in preventing the defense of a town."

The recent packer subsidy which has been withdrawn.
