FIRST ELECTRIC MOTOR

Williamstown, Vt.—(U.P.)—The world's first electric motor was invented by Thomas Davenport of Williamstown, whose first step was to make a horseshoe magnet and wind it with the silk of his wife's wedding dress. That was the beginning of the electrically driven car.

Davenport, who devoted his life to science, died here a poor and unrecognized man.

The money was made at a carnival staged August 3 and 4 at the home of Mr. and Mrs. J. D. Eisen, 995 Oakdale street.

The girls expressed their thanks to Fluhrer's Bakery for loan of a loud speaker and Victoria; Dale Franklin and Mr. Young for loan of ponies; H. S. Duell for ice and Dale Franklin for snow cones.

The following children managed carnival stands: Fish pond, Alice Gault, Bardy Westergren, Charles Dean, Sharon Elsen; penny throw, Alan Gault; punch-board, Diane Franklin; food stand, Claire Cordies; tickets, Madelyn Klinefelter, Catherine Vilas; pinball, Catherine Vilas, Dorothy Ray; grab bag, Joan Dean; tattooing, Ben Cordies; fortune telling, Mary Bragg; pony rides, Joan Elsen, Marty Franklin; accordion playing, Dick Hawkins.

Miss Humphrey pointed out that money for the Junior Red Cross is always raised by school children during the year with permission and approval of the projects by the Red Cross office.

Blaze Does Small Damage at Hotel

City firemen were summoned to the Crater Hotel on South Central avenue shortly after six o'clock last evening to extinguish a blaze in one of the rooms. A fire department spokesman said the fire started in a mattress, burned the pillow, a curtain and scorched the window frame.

Hotel employees had the blaze out with fire extinguishers, except for a few smouldering embers, when the department equipment arrived.

When you are out in the wide open spaces, treat your campfire as you would a child. It craves attention and left to its own devices may become destructive. Keep Oregon Green.
