### Wrongly Convicted Man Granted Full Pardon For Murder

Chicago, Aug. 16—(U.P.)—Joe Majczek had his first home cooked breakfast in 11 years today. He ate heartily, trying to make up for the 4,196 breakfasts he had eaten while serving a prison sentence for a crime he did not commit.

Majczek was granted a full pardon yesterday after serving time for the murder of William D. Lundy, a policeman, during a delicatessen robbery. He had been sentenced to a 99-year term.

He looked up gratefully at his mother when she served him a cup of steaming coffee with real sugar and cream. It was her faith that had freed him from prison.

During all the time her son was "away," Mrs. Tillie Majczek, 57, worked as a scrub-woman in a skyscraper, living frugally to save enough money to fight for his freedom. She finally drew authorities' attention to his case. Evidence was produced showing that he had been identified falsely as holdup slayer of the policeman.

### CIGARETTES STOLEN FROM LUNCH PLACE

Several cartons of cigarettes, candy and gum were taken from Bill's Lunch, corner of Twelfth and Fir streets, sometime Tuesday night when it was broken into by an unknown person or persons. Pies in the cafe, which is owned by W. E. Beelby, were disturbed, police said. Police also reported that Klocker Printery, 407 East Main street, was entered last night by breaking glasses of a rear door with a shovel. Nothing was reported missing from the building.

### SPEED LIMIT HIKE WILL AWAIT TIRES

Portland, Ore., Aug. 16—(U.P.)—Until the improvement of the tire situation, it was predicted today that the 35-mile-an-hour speed limit on highways in Oregon will remain in effect.

State Highway Engineer R. H. Baldock said the 35-mile speed limit was of "no legal significance," but one recognized by the people in a cooperative wartime effort to conserve tires. The legal speed limit in Oregon is 55 miles an hour.

Baldock expressed the belief that Oregon would keep the wartime 35 mile speed limit along its highway until the government takes contrary action.

### First Peace Mass Held at Honolulu

Honolulu, T. H., Aug. 16—(U.P.)—Archbishop Francis J. Spellman of New York celebrated the first peace mass held near the scene of the beginning of America's second world war.

Only a few hundred yards from the point where the Japanese dropped their first bombs Dec. 7, 1941, Spellman told servicemen yesterday "War is a sin against man and nature."

"Our sad experience," he said, "make or should make us all the more determined to destroy the diabolical tyranny that is the sin of men's injustice and inhumanity to fellow men."

## ANTIQUA AUTOS TRANSPORT MAN TO DAILY TASK

Pittsburgh (U.P.)—A designer of modern locomotives by profession, Robert C. Wellwood col-

lects antique automobiles for a hobby.

Wellwood has a fleet of four cars that uphold the splendor of lush days gone by, a Locomobile, a Belgian Minerva, a Lincoln, and a Cadillac, each about 20 years old.

Far from being museum pieces, the four cars are put to good use. Every morning Wellwood selects a car and drives to work. The original total cost of the four custom-built tycoon chariots was about \$50,000, but Wellwood bought them for \$400. What is more, the automobiles

are in good running order, and their owner predicts they will run another 30 years.

Outside Drive The \$20,000 Locomobile (1926) was purchased for \$100, and tires were obtained for \$25 through a newspaper ad. The luxury "opera" car weighs 6,000 pounds, and has an outside drive for a chauffeur.

The car, technically called a brougham, is equipped with rose-colored window glasses. It was used in Paris for three years by the original owner, an American industrialist.

The Belgian Minerva, with righthand drive, originally cost \$17,000, but Wellwood paid \$125 for it. The back seat is equipped with an electric telephone to the chauffeur.

The Lincoln and Cadillac were originally priced at about \$5,000, and Wellwood bought them for \$75 each.

### COWS GIVE MORE MILK

Seattle (U.P.)—Washington state's cows evidently have caught on to the all-out-for-production idea. In May, they surpassed 1944 producing records for the eighth consecutive month by producing 250,000,000 pounds of milk. The cow population has not increased, farm experts point out.
