WOLF SANCTUARY IS SOUGHT IN MICHIGAN

Detroit—(AP)—A "wolf sanctuary" is being sought by the Detroit sportsmen's congress in the belief that the howl of the timber wolf has a definite place in the Michigan outdoors. The congress is seeking the sanctuary somewhere in the wilderness of the Upper Peninsula because the animal is gradually disappearing. The sportsmen feel that the sentimental value of the wolf exceeds the damage he might do to deer and other game in one area set aside for his protection.

Your Health and It's Care

By DR. WILLIAM BRADY, M.D. Readers should address inquiries to: Dr. William Brady, 265 El Camino, Beverly Hills, Calif.

A WEE NIP OF IODINE Nutrition authorities estimate that the normal individual, man, woman or child, requires a minimum daily intake, allowance or ration of from 50 to 150 micrograms of iodine in one form or another, to maintain good health. A microgram is a wee, wee bit—one thousandth of a gram.

Dr. Brady grams in a milligram and approximately 65 milligrams are equivalent to one grain. I never do myself, but in a single drop of Mild Tincture of Iodine there is approximately 300 milligrams of iodine. In each tablet of Iodin Ration there is approximately 150 micrograms of iodine, enough to supply the minimum requirement for most people even if they get no additional iodine in food or water.
