MACHINISTS VOTE TO STAY ON JOB WITH NISEI JAP

San Francisco, Aug. 29—(U.P.)—A majority of municipal railway machinists today have voted to stay on the job, despite previous protests over hiring by the city of Takeo Miyama, a Japanese-American.

The vote supported a committee of seven machinists who conferred with State Sen. Jack Shelley, president of the AFL central labor council.

In their report the committee said they regretted the situation had been "misunderstood," and "made to appear an issue based on discrimination against Miyama, because he is of Japanese descent."

They said it was their feeling vacancies should go to veterans, but it was their decision to stay on the job whether Miyama works or not.

The dispute had been marked by a personal appearance before the workmen of Mayor Roger Lapham, urging them to accept the Hawaiian-born Nisei, who met all qualifications for the job.

EXONERATE BOTH SIDES BAY CITY PEACE DAY RIOT

San Francisco, Aug. 29—(U.P.)—The grand jury early today ruled that neither city police nor the naval shore patrol could be held responsible for San Francisco's riotous peace demonstrations of two weeks ago.

Their final hearing last night on the celebrations which sent over 1000 to hospitals with injuries and resulted in extensive damage along Market street including appearances of Mayor Roger D. Lapham and Police Chief Charles Dullea.

Lapham declined to comment to reporters regarding his testimony. Dullea presented statistics which he said showed the shore patrol rather than the police were to blame, as 99 per cent of those involved were sailors.

District Attorney Edmund G. Brown said that rear Adm. Carlton H. Wright, 12th naval district commandant, had refused to appear or send a representative, but that in answering questions posed by the district attorney indicated he felt the police were to blame.

WLB ORDERED TO FINISH ITS JOB

Washington, Aug. 29—(U.P.)—Secretary of Labor Lewis B. Schwellenbach took another step today toward asserting his position as the administration's top labor policy man. He insisted that the war labor board finish the job of settling serious re-conversion labor disputes assigned it by President Truman.

Schwellenbach turned down a WLB proposal that the labor department settle all disputes except those in which the parties concerned agree to be bound by the WLB decision.

Such agreement was obtained by the department in only five per cent of the 76,000 cases it

processed between Dec. 7, 1941, and Aug. 14, 1945. Informed quarters believed the percentage would be even less now that the war has ended.
