Undeterred by the heavy enemy artillery and mortar fire, T/G McGinty and the group, with utter disregard for personal safety, succeeded in making the survey, thereby enabling our artillery to bring accurate and effective fire upon the enemy positions. His bravery, technical skill, and calmness under fire reflect great credit upon himself and the armed forces." **German Propaganda War Found Amusing To Nazi Cartoonist**  
Bremerhaven, Germany (UPI)—The Germans had a propagandist war of their own—and it amused them as the Allies' warfare of the same sort amused the Americans and British. "Der Papierkrieg"—the "paper war"—was a cartoon found on the walls of a former German military office here. The cartoon shows a furious battle being waged between two front lines which are supported by heavy guns, strafing and bombing aircraft, and long trains bringing up new supplies. All the guns are firing pamphlets and the trains are loaded with more. The air is filled with the tracts.

**Lawn Mowers—Prewar Versus Postwar**  
Will Curry isn't falling for those pictures of a postwar life of ease. He is sweating over his lawn mower the other day, when somebody shows him pictures of a mower that runs under its own power. "Shucks," says Will, "I like a lawn mower that gives you some backtalk and exercise. It gets the old blood circulating and works up a wonderful thirst. Then," Will adds with zest, "there's nothing in the whole world that tastes as good as a cheerful glass of beer!"

## POSTWAR GAS OF STANDARD CO. IS ON SALE LOCALLY

Built on the experience gained in making more than a billion and a quarter gallons of 100 octane gasoline, Standard of California's new post-war gasoline is being distributed to Jacksonville motorists today. It was announced by L. T. Nygaard, Branch Manager at Medford, who declared this new fuel is greatly improved over even the best pre-war automotive gasoline. It is being marketed as "Chevron Supreme" gasoline. "Lessons learned all over the world, including flying and driving in extremes of desert, arctic and tropic weather conditions, are behind the development of this new product," Mr. Nygaard declared. "It is really 'tailor made' to meet all the operating problems of the West, from mountain to desert.

"In every respect, this is the gasoline we have been waiting for. It will give quick starting, fast warmup and maximum mileage. There is less waste in starting and warming up. Vapor lock tendencies are eliminated. The average driver will particularly notice the difference when operating at low speeds, with heavy loads on hills, and when accelerating."

## LIGHTNING CAUSE NINE NEW FIRES

Nine forest fires, started by lightning last evening, were believed under control today as Crater Lake National forest service men continued to patrol areas surrounding them. Six are in Applegate district, and three in Lake O' Woods area.

Parachute jumpers were dropped over one blaze in Applegate district by a plane from Siskiyou forest camp. The Chystal school house, located in Lake O' Woods district in Klamath county, burned yesterday, according to a report at forest service headquarters here.

Oregon merchants receive \$9.45 in cash for logging and sawmill supplies for every thousand feet of lumber manufactured. A forest fire thus destroys business in every forest community.
