NAVY SPOKESMEN SAY CONTINUANCE OF DRAFT NEEDED

Washington, Aug. 31—(U.P.)—The house military affairs committee today that the draft must be continued to meet their needs in the next year.

The navy plans to cut its present strength of 3,389,000 to 500,000 by Sept. 1, 1946. The marine corps probably will discharge 221,471 of its present 421,370. The total discharges of marines may be stepped up, perhaps to 396,467.

To offset these releases the navy must induct 232,000 in the next year. Marine plans call for recruiting 45,000 new men after V-J day is declared.

Capt. H. G. Hopwood, special assistant chief of naval personnel, said 16,000 men volunteered for navy service the past month. However, he explained, this rate was expected to drop.

Men must be drafted to make up the lag, Hopwood said.

"We must have an anchor to windward, namely a continuance of selective service," he said.

Brig. Gen. Gerald C. Thomas of the marine corps revealed that the corps proposed postwar strength is 100,000.

Marines with a point score of 85 or above are eligible for discharge. Those with 70 points or more will be sent overseas.

Until the Japanese reaction can be gauged, it is impossible to blueprint accurately the marine situation, he said.

Wall Street

New York, Aug. 31—(U.P.)—
Stocks had a general advance under the leadership of industrial shares today, as that group hit a new high for eight years.

Trading, however, was light, hampered by week-end holiday considerations. The New York stock exchange closes tomorrow for the last of nine Saturday summer closings, and will be closed Monday, Labor Day.

Steels scored gains ranging to a point and more in inland steel and Bethlehem, both of which reached 1945 highs. Santa Fe rose a point, while New York & Harlem, an inactive rail stock,

rose 10 points to a 1945 top. Chrysler rose more than 2. U. S. Rubber, up 1 1/2, hit a new high. Electric Auto-Lite, on the dividend action, rose 1 1/2 points. Rail equipment shares were up a point or more. Sears, Montgomery Ward and Abraham & Straus were up 1 to 2 points.

Chilean Airfields To Connect Nations To World by Plane

Punta Arenas, Chili (U.P.)—Work is going on to connect the extreme south of Chili to the rest of the world by air. Airfields are being constructed at Porvenir, Springhill, Felipe Bay, Gente Grande, Cape Catalina and Cape Delgada with the co-operation of local sheep interests.

These modern installations will be the stepping stones for the Chilean Air Line "LAN" services to the Punta Arenas, Tierra del Fuego and Ultima Esperanza regions.

Two partially completed concrete landing strips are in operation at Porvenir, one 3,000 by 1,200 feet, and the other 2,700 feet long by 300 feet wide.

At Springhill, the main landing strip for prevailing winds is partially completed and in use with a length of 2,100 feet, 900 feet wide.

Other air strips are projected in Patagonia and Kimiri Ayke. The Kimiri Ayke international airport will be the junction for several routes, and will accommodate, when finished, up to the largest projected commercial planes.

The Catalina Bay airport will be an alternate junction for local, national and international air traffic. It is placed sufficiently close to Kimiri Ayke, and yet has a completely different weather regime. Catalina Bay will also be a military and naval air base.
