Because PRESTO COOKERS are so remarkable, and because, up until recently, their manufacture was totally restricted for four years, the nation-wide demand for these wonder-working pressure saucepans is tremendous. The production facilities of the manufacturer of these cooking utensils are great, but the needs of the Government for certain essential war materials must still be supplied.

As a result, such quantities of PRESTO COOKERS as we are receiving now are, and will be, far too few to supply the demand, for some time to come. In fairness to all, requests for PRESTO COOKERS will be filled in the order in which they are received.

A Suggestion: If you have not already done so, register your name for a PRESTO COOKER now, with us, to get one with as little delay as possible.
