National League Champs Get To Newhouse Early For Four Runs In First

Detroit, Oct. 3—(U.P.)—The Chicago Cubs, treating Hal Newhouse, the major league leading pitcher this year like a cousin, batted the Detroit Tigers all over Briggs stadium today to win the first game of the 1945 World Series 9 to 0 behind the six-hit pitching of Fordham Hank Borowy.

Starting out with a bang, the Cubs got to Newhouse, who won 25 games in Detroit's path to the American League pennant, for four runs in the first inning, knocking him out in the third when they scored three more times and added two more runs for good measure off one of the three other hurlers called on by Manager Steve O'Neill in a vain attempt to still the thundering Chicago bats.

BYRINES EN ROUTE TO STATES AFTER BIG FIVE MEETING

Molotov Agrees To Principle Of Drafting Balkan Peace Treaties, Is Claim

London, Oct. 3—(U.P.)—Secretary of State James F. Byrnes left by plane for the United States today after revealing that he was attempting to salvage the wreckage of the big five conference with a compromise formula for drafting Balkan peace treaties.

Byrnes told a press conference that Soviet Foreign Commissar V. M. Molotov had agreed in principle to the compromise, but had to consult the Kremlin before giving his final word Britain accepted the plan.

Ministers Leaving

Molotov was scheduled to leave Britain momentarily. French Foreign Minister Georges Bidault and Chinese Foreign Minister Wang Shih-Chieh also were expected to leave for their homelands during the day.

The American proposals calls for the United States, Russia and Britain to draft the European peace treaties and then submit them for consideration to peace conferences of all nations which contributed to the allied victory.

Acceptance Seen

Byrnes said he believed France and China—the other two participants in the foreign ministers' conference—would accept the compromise. Russia had stymied the conference by adamantly demanding that the big three dictate the peace treaties without giving France or China even an eventual voice in the terms.
