PIN-WORMS

Now can be Beaten!
The miseries of Pin-Worms have been known for centuries, and millions of victims have sought a way to deal with this pest that lives inside the human body.
Today, thanks to a special, medically-recognized drug (guanin violet), a highly effective treatment has been made possible. This drug is the vital ingredient in P.W., the Pin-Worm tablet developed in the laboratories of Dr. J. Jayne, Sr.
The small, easy-to-take P.W. tablets act in a special way to remove Pin-Worms. So don't wait for the embarrassing itching caused by this pest, and don't suffer needlessly. Buy a package of JAYNE'S P.W. and follow the simple directions carefully. Satisfaction guaranteed or your money back.
P.W.—the treatment for Pin-Worms.

Irrigation Unneeded

So Season is Closed
The irrigation season closed Oct. 1 in the Rogue river, Smith Watermaster Clinton Smith reports. The season officially ends Nov. 1, but as there is nothing to irrigate and no water to do it with, the closing will be a mere formality.
Watermaster Smith said, due to the may rains there was a sufficient supply of water. The only shortage was in the Talent district at the tail-end of the season. The valley is now dry and rain is needed for fall plowing and sowing.
