SERVICE FORCES SEEK VOLUNTEERS IN REGULAR ARMY

Army service forces are now seeking voluntary enlistments into the regular United States army. Pending publication of changes now in process to current regulations, the following advantages of the law are furnished in order that immediate emphasis may be placed on them in the recruiting effort.

Anyone desiring to enlist or reenlist in the regular army may obtain complete information at the Federal Building, located in the Medford Postoffice building.

Original enlistments and reenlistments may be made in the regular army for periods of 18 months or two or three years from male persons not less than 17 years of age. No person under 18 years of age may be enlisted without written consent of his parents or guardians.

Any qualified and acceptable member of the AUS or component thereof who has performed active service therein of not less than six months shall upon his own application be accepted for an enlistment period of one year plus the period of any furlough granted at the beginning of such enlistment.

No person who is serving under an enlistment contracted on or after June 1, 1945, shall be entitled, before the expiration of the period of such enlistment, to enlist for a period which will expire before the expiration of the time for which he is so serving.

Any enlisted man of the regular army who has completed not less than 20 or more than 29 years of active service may, upon his own request, be transferred to the enlisted reserve corps (to remain a member thereof until his membership in ERC equals 30 years) and at the same time be retired from regular army with annual pay equal to 2½% of the average annual enlisted pay, multiplied by a sum equal to the sum of the number of years of active service performed not in excess of 29 years. All active federal military service performed in the army of the United States, the navy, the marine corps or the coast guard or any component thereof counts toward retirement. Fractional part of a year amounting to six months or more counts as a completed year.

Men honorably discharged and enlisted within 20 days of discharge will be enlisted in the highest grade permanent or temporary held by him at time of such discharge provided reenlistment is made prior to Feb. 1, 1946. Men who have enlisted in the regular army on or after June 1, 1945, in grades lower than those provided for in this announcement will be immediately promoted to the higher grade held at time of discharge.

Reenlistment furloughs will be granted to those with not less than six months' service provided they reenlist within 20 days of discharge and the length of the furlough will be computed on the basis of 30 days for each completed years' service not to exceed a total of 90 days' furlough.

Mustering out payments are now authorized for all enlisted men discharged for immediate reenlistment. Reenlistment allowance payable for persons enlisted or re-enlisted within 90 days of discharge on or after June 1, 1945, is $50 for each year of completed service, commissioned or warrant grades will if honorably performed subsequent to the payment at the last previous enlistment allowance be credited.

The dependents of any enlisted man may receive a monthly family allowance during the existence of any war declared by congress plus six months and also during a period of enlistment or reenlistment contracted by such enlisted man prior to July 1, 1946.

GI Bill of Rights is extended to any one who enlists or reenlists within one year after the passage of the Act and is extended to cover the individual's first period of enlistment or reenlistment. Free mail privilege is extended to December 30, 1947.
