

## 176 T. B. CASES IN JACKSON COUNTY; SEAL PLANS TOLD

The existence of 176 cases of tuberculosis in Jackson county with 15 people receiving treatment in the state tuberculosis sanitarium was reported Thursday to the executive board of the Jackson county Public Health association by the president, Mrs. Elwood Hedberg. The board met for luncheon at the home of Miss Helen Bullis. Reviewing activities of the association and those of the county health department, which receive financial aid from the association, Mrs. Hedberg stated that 429 visits were made by nurses to these cases.

These nurses also made 3,972 visits to infants in the county, 1,397 to pre-school children, 12,566 inspections of school children, 2,296 field visits to sick

children, 353 visits to crippled children and 4,000 to persons suffering from communicable diseases.

The Public Health association sent Mrs. Blanche Frisbie, supervisor of public health nurses, to the medical school for special instruction and other nurses of the staff to Salem for instruction in tuberculosis treatment. Two Girl Scout campships were financed by the association.

Mrs. Alex Sparrow, treasurer of the association, showed in her report that \$4,147.08 was spent by the association on tuberculosis cases in this county last year.

Progress in plans for the 1945 Christmas seal sale were reported with the opening date announced as Nov. 19 by Mrs. Glenn A. Gibbons, county chairman. The annual meeting of county workers will be held Saturday, Oct. 27 at the Hotel Medford. Luncheon will be served at 12:30 o'clock.

On the Pacific coast, 1945 forest fires caused by human carelessness resulted in more loss of life and property damage than that caused by all the Jap bombs which fell during the war.
