

## World Federation Required For Civilization's Survival Knife and Fork Club Told

If the world is foolish enough to have a third world war it will probably start in Asia. This was the prophecy of Dr. Vernon Nash, noted educator, lecturer, author, voiced in an address Saturday night at the Roosevelt school auditorium. Speaking at a meeting of members of the Rogue River Valley Knife and Fork club, Dr. Nash predicted that China's "bewildering continuity" of the past 5,000 years will continue unchanged in the century to come while world empires will be doomed in the age ahead.

Although the speaker's subject was "America's Next 100 Years in Asia," he devoted much of his address to a discussion of the San Francisco Charter and the urgent need for a world federation if civilization is to survive. In Asia today are the seeds of "flaming radicalism" and the infection in the world's blood stream can only be banished by creating a condition of freedom and abundance for all. The next war, if it comes through the stubbornness and folly of those now in power, might well start with conflict between the Chinese people themselves as the second World War began in Spain, in the opinion of the speaker.

Dr. Nash pointed out that the people of Asia are punch-drunk as a result of war, and it is folly to believe that their problem has been solved by decisions at Potsdam and San Francisco. The San Francisco Charter he said moved from birth to senility in a single instant when the atomic bomb fell on Hiroshima.

**Indonesia Cited**  
Dr. Nash discussed the perplexing problems of colonial empires and cited the unrest in the Dutch East Indies as proof that the best empire is not good enough in this new age. Colonial people will only be satisfied with territorial status in a new commonwealth of nations, with assurance of speedy acceptance as full fledged members.

The stand of the United States at San Francisco is entirely out of keeping with the traditions of 150 years of American national life, according to Nash. There is every sign that this nation is heading down the bloody road to imperialism and that the principles which America's sons waded through blood to maintain will be lost if empires are put back into the saddle. The demand for Pacific bases was scored as an indication of this nation's impending "rationalized imperialism."

High tariff walls were vigorously denounced by the speaker as contributors to world conflict. The establishment of tariffs was pointed to as one step on which Hitler climbed to power in Germany and precipitated the last world war.

The U. S. and British will never support continued force to maintain peace in conquered lands and the aimlessness which characterized our course following World War I seems to be returning. The days of Civil War reconstruction were cited as similar to the ensuing era if our present course is followed. The product of the 1860's was the "hooded boys in their nighties, and the carpetbaggers of this age will make those gown and hood boys look like pikers," Nash prophesied.

**One Faint Hope**  
The San Francisco Charter, already antiquated and irrelevant in the atomic age, offers one faint hope in the creation of machinery for eventual world federation. Dr. Nash's only antidote for another world war. "Such a federation, once believed by many to be desirable, is now an absolute necessity and has number one place on humanity's agenda. Without it the growth of power politics and betrayal of men who fought and died in this war are inevitable," he said.

The world, now physically unified, is chopped into political subdivisions. Banishment of world tariffs and immigration restrictions go hand-in-hand with the building of a commonwealth of nations, according to the speaker.

In reply to a question concerning the Chinese people, Dr. Nash said that they are more like Americans than any other people on earth. Both races are basically idealistic yet have their feet firmly planted on the ground;

both have a keen sense of humor and an inherent love for freedom.

Dr. Nash founded the first school of journalism in Asia in Yenching University, Peiping, China, is a Rhodes scholar from Missouri, served in the British Army in India and is a former executive director of the National Peace Conference. He is the author of several books, among them "Exit Empire."

The Rev. George R. Turney, president of the Rogue River Valley Knife and Fork club, presided at Saturday's meeting and the speaker was introduced by Elmer Schlotz, representative of the Associated Clubs.

### What's Doing at U. S. O.

Plans for a Navy Day dance next Saturday, Oct. 27, at the Riverside USO are being completed by Miss Bernice O'Denny, director of the club. Dancing will be from 8 p. m. to midnight, with music by a newly organized navy band from the Camp White hospital. The auditorium will be decorated in a navy theme, Miss O'Denny says, and the dance will be informal in costume.

Junior hostesses from Medford, Ashland and Grants Pass are invited and any girls who are not registered as junior hostesses but who would like to attend are urged to secure tickets from staff members at the center. Men from all branches of the service are welcome.

Navy Day was inaugurated in 1922 as a day of national navy recognition, under auspices of the Navy League a civilian organization founded in 1902 and dedicated "to interpret the navy to American people." Oct. 27 was selected as the navy day date, as it was on that day that the Congressional Congress in 1775 received a bill providing for the creation of an independent fleet. It is also the birthday of Theodore Roosevelt, long an advocate of a strong navy.

### P.-T. A. Activities

**Prospect P.-T.A.**  
Prospect Parent-Teacher Association will hold its annual teachers' banquet Oct. 24 at 7 p. m., in the high school cafeteria. All members are invited to attend and a program is planned.

**JEALOUS SLAYER PLANS LAW TEST**  
San Francisco, Oct. 22—(U.P.)—The case of Annie Irene Mansfeldt, socialite doctor's wife charged with slaying the nurse she suspected was a love rival, today appeared likely to challenge for the second time California's controversial dual murder-sanity trial law.

The widowed mother of three children, who assertedly shot and killed nurse Vada Martin, Friday entered the required dual plea of not guilty and not guilty by reason of insanity after Defense Counsel Vincent Hallinan charged the California statute was unconstitutional and based on "medieval" medical precepts. Judge Murphy set Nov. 26 for trial.

**Jilted Lady's Coin Financed Romance**  
Los Angeles, Oct. 22—(U.P.)—Her honeymoon was financed with funds her husband obtained from a former sweetheart, Mrs. Charline Smith, 20, claimed today in filing a suit for annulment or divorce from Richard E. Smith, 30, Chicago.

To marry her, Smith jilted another woman who had given him valuable gifts, including a car and money, which he used to meet honeymoon expenses, Mrs. Smith said she learned. The two were married in Las Vegas, Nev., last July 11.
