**NEW CHEVROLET IN CITY PREVIEW EYED BY DEALER**

C. W. Thomson of the Rogue River Chevrolet returned from Portland today where he attended a preview of the new 1946 Chevrolet at the company's zone headquarters. He was to discuss the mechanical and style features of the new car, but by his eager attitude it was apparent that he expected the formal announcement and public showing of the car to be at an early date. Mr. Thomson said he and other dealers in the area were confident that the 1946 Chevrolet will maintain the record of the top volume sales, which Chevrolet reached in 10 of the last 11 production years of automobile production, to meet the unprecedented pent-up demand for new cars. Following the same policy as in former years, the new Chevrolet will be displayed simultaneously in dealers' showrooms throughout the country, Thomson said. Newspaper announcements will tell when prospective customers may see the new car for the first time. Throughout the war period, car owners have been forced to get along with their old automobiles. At the same time dealers have expended every effort to service these cars, and to keep them rolling for the duration. Mr. Thomson stressed car care, policies would become mature at the end of 10 years, but an unemployed veteran or a veteran-student would be permitted to draw on his policy for as much as \$100 monthly. In other resolutions adopted by the convention, the DAV came out for a unified department of national defense, asked congress to set up a system of compulsory military training and called for the establishment of a major committee on veterans affairs in each house of congress. Mrs. Beatrice Hogan, Cincinnati, was elected national commander of the DAV women's auxiliary.
