**From where I sit ... by Joe Marsh**  
"There ought to be a law!"  
Every now and then, when I run out of news for the Clarion, I print items about what happened Fifty Years Ago in our Town. May be a lazy man's way of filling space, but it often makes mighty interesting reading.  
Seems like human nature is always repeating itself. Same old prejudices, bickerings, and mistakes. Here's an 1895 politician trying to restrict free speech ... a demagogue crying out against women's rights ... a local com-

mittee raising the bugaboo of Prohibition.  
Same old cry down through the years: "There ought to be a law!" Same old desire of one group to force its opinions on another.  
From where I sit, it's not more laws we need—nor more restrictions of our right to think, and choose, and live as we see fit. But more tolerance and understanding—more "live-and-let-live" among human kind.
