Your Health and It's Care

By DR. WILLIAM BRADY, M.D.

Readers should address inquiries to: Dr. William Brady, 265 El Camino Beverly Hills, Calif.

BABY DESERVES A BETTER BREAK

My baby, three months old, has a slight cold (writes a mother of better than average intelligence — to judge by her letter of conventional American ignorance so far as physiology, hygiene and health are concerned.) I have been taking her out Sunday nights to church and Wednesday nights to prayer meeting since she was three weeks old. My aunt criticises me and says the reason she has a cold is because I take her out in the night air . . . (Mrs. A.S.M.)

Dr. Brady

Night air is generally better for the baby or for any one else than day air. It is clearer of dust, cleaner, more refreshing, less dried out and hence less likely to be irritating to delicate membranes lining the breathing passages than day air is.

But if you had even attended school, Ma'am—I mean if the school system had been enlightened you would have learned, say in sixth grade, that a baby's place is in the home—not out on the street, attending the movies, prayer meeting or cocktail parties, and especially is this true after dark.

I know it is just terrible that a young mother should be pinned down like that for a whole year or more when she wants to be out "having a good time."

A baby less than six months old should be undressed, bathed, powdered, given time for a little play on the blanket, dressed in nighty, fed and tucked in bed by 5 to 5:30 p. m. every day. Zero hour for a baby to be abed is 6 p. m. until the baby is two years old. People who drag babies out at night should be warned for the first offense, punished for the next offense. This leniency is fair because such people are not entirely to blame for their ignorance—the board of education ought to be censured or penalized for failure to provide elementary instruction in the care of infants.

This "slight cold" your baby has picked up at church or prayer meeting, Ma'am, whatever it may prove to be, was very likely presented to the defenseless baby by some generous soul who stopped to admire the baby and left a sample of whatever he or she happened to be coming down with.

Every baby a year old must have 14 or 15 hours of sleep daily, in comfortable bed, not in a cart or a car or in any place convenient for the careless mother or nurse to park the nuisance. One or two hours of the 15 hours of sleep may be in a mid-day nap. Unnecessary or unusual noise should be avoided when the baby is asleep, but the ordinary household activities and sounds should not be hushed—a normal baby is not disturbed by ordinary sounds, or lights. A normal baby has no more fear of the dark than you or I have.

QUESTIONS & ANSWERS

Liver

To settle an argument, please state how large the liver is in a healthy person. (G. W.)

Answer—Approximately 7½ inches wide, 6 inches thick, 4 inches front to back, and weighs 3 pounds.

Sanitary Kitchen

I get the impression that you think there is no objection to emptying into the kitchen sink water the floor has been mopped with, provided the sink is afterward washed with soap and water. Do you mean there is still no danger from the cloth used to wash dishes with? (R. A. E.)

Answer—Once used of course a dish towel or cloth or brush or sponge or rag is no longer absolutely safe until it has been laundered and IRONED or boiled or otherwise heat sterilized. But practically, plain soap and water washing such as any good housekeeper does, is ample sanitary care in the kitchen.

Genuine American

If a young man's grandfather was an American Indian, what chances that his children may have Indian traits? He himself is fair, with blue eyes, blond hair. His prospective bride is white. (M. M. A.)

Answer—Practically no chance at all. At any rate it is not a bar to marriage and raising children. I'd as soon have a dash of genuine American (Indian) blood in me as English, Irish, or other strain. Children born to the young man are as likely to look like Italian or Swedish kids as they are to look like Indians.

Relieve that Tormenting

PIN-WORM ITCH Too Embarrassing to Talk About!

It is no longer necessary to put up with the trouble caused by Pin-Worms!

A highly effective way to deal with this ugly infection has now been made possible. It is based on the medically recognized drug known as gentian violet. This special drug is the vital ingredient in P-W, the Pin-Worm tablets developed in the laboratories of Dr. D. Jayne & Son.

The small, easy-to-take P-W tablets act in a special way to remove Pin-Worms. So don't take chances with the embarrassing rectal itch and other distress caused by these creatures that live and grow inside the human body. If you suspect Pin-Worms in your child or yourself, get a box of JAYNE'S P-W right away and follow the directions. Satisfaction guaranteed or your money back.

Your druggist knows: P-W for Pin-Worms!

FARM EARNINGS TO DIP SHARPLY IN COMING YEAR

Washington, Nov. 1 — (U.P.) — The agriculture department today predicted a break of 10 to 15 per cent in farm earnings next year from the record high levels of 1945.

In a forecast of farm income in 1946, the department said that overall earnings probably will decline $2,200,000,000 and income after taxes and expenses by $1,950,000,000. Nevertheless, farm income still will be higher than pre-war levels.

With the drop in farm income, the department said, there probably will be an increase in some of the prices farmers must pay next year.

The department predicted "moderate" reductions in prices received for meat and dairy products, but sharper declines in prices are poultry and eggs, fruits and vegetables.

Farm wage rates, which have almost tripled during the war, are likely to stay high, the department said.

The department said that overall farm income this year probably will reach the historic height of $21,200,000,000, including $800,00,000 in government payments. Net income probably will amount to $13,000,000,also a record.

EX-CON KILLED

Sacramento, Nov. 1 — (U.P.) — James Theodore Quillen, 30, ex-convict sought by police on bad check charges, was shot and killed attempting to escape from a squad car en route to police headquarters last night.

SMUGGLED ATOM BOMBS CAPABLE OF MASS DAMAGE

Foreign Agents Could Plant Time-Bombs in Nation's Major Cities, Is Claim.

Cambridge, Mass., Nov. 1—(U.P.)—Foreign agents could plant atomic time-bombs in this nation's major cities and military bases during peacetime to destroy it in one big blow, according to the association of Cambridge scientists.

Advocating international control of atomic energy, the newly-formed association predicted an atomic war would be waged with atom-mines smuggled into a country rather than with airborne atomic weapons.

Would Resemble Piano

"Atomic explosives are sufficiently compact to permit an infernal machine to resemble a grand piano, or a chest of drawers, or a sofa," said Dr. Louis N. Ridenour, one of the many nationally-known scientists gathered here for radar development.

"The mechanism of the bomb, apart from the explosive material itself can readily be constructed within the country to be mined, and assembled on the spot," he said.

"The explosive would have to be smuggled in, but this can be done in many ways and in such small individual lots that detection is escaped more than 90 per cent of the time."

Conclusions Reached

The aggressor nation even might remain unidentified after wiping out or crippling its enemy, said others among the more than 500 physicists, chemists and engineers joining the association in urging world control of atomic weapons and research.

The association urged the United States to lead in achieving world cooperation for the prevention of war.

It reached the conclusions:

1. Other nations will be able to produce atomic bombs.
2. No effective defense is possible in atomic warfare.
3. Safety cannot be obtained by superiority in atomic armament.
4. Future wars will mean the destruction of "a large fraction of civilization."
5. International cooperation "of an unprecedented kind" is needed for survival.

Navy Reopens V-5 Training Program To Boys Under 20

The navy has opened flight training to 19-year-old civilian boys for the first time since the war ended. The age limit previously was 18.

Naval aviation cadet selection board in Seattle said that civilian boys between the ages of 17 and 20 could join class V-5 of the naval reserve immediately if they were high school graduates or would be graduated on or before Feb. 25, 1946. They will be on inactive duty until March 1.

The minimum height limit was raised to five feet, six inches.

Transportation to Seattle will be furnished upon request of applicants, the navy said.

THE WORLD AT ITS WORST By GLUYAS WILLIAMS

WHEN YOU'VE BEEN LEFT ALONE FOR A MINUTE WITH THE CHILD OF THE HOUSE WHO FOR NO KNOWN REASON IMMEDIATELY BURSTS INTO TEARS, AND THE OTHERS, SCURRYING BACK, ASSURE YOU THAT THEY'RE SURE IT WASN'T YOUR FAULT, IN A TONE OF VOICE THAT IMPLIES THAT THEY CONSIDER YOU AN OURE OR A DOPE OR BOTH

Kentucky Fugitives Captured at Baker

Portland, Ore., Nov. 1—(U.P.)—After breaking out of a Paducah, Kentucky, jail and an Oregon one within a month's time, Elbert Earl Demery, Memphis, Tenn., and Jesse Kirkland, Paducah, Ky., were back in police custody today.

The two men, wanted originally in Paducah for breaking jail there Sept. 25 after beating the jailer, were apprehended at Baker today—a day after their most recent escape from the jail at Heppner, Ore.
