Navy Now Offers 2, 3, 4 or 6 Year Terms of Service

C. P. O. Mel Kennedy, recruiter in charge of the Medford navy recruiting station, announced today that men now volunteering for service in the regular navy will have the option of electing either two, three, four or six year terms of enlistment.

Regular navy term previously has been four years. Other new and attractive inducements for men considering the regular navy are provided in the Voluntary Recruitment Act of 1945 just passed by congress and signed by President Truman.

In a summary of the new Recruitment Act Chief Kennedy mentioned: Reenlistment gratuity of fifty dollars in all pay grades for each year served in the current term of active duty.

Immediate payment of mustering-out pay, instead of waiting until final separation from service.

Up to 60 days leave with transportation provided both ways.

Permanent extension of wartime 20 percent extra allowance for sea and overseas duty.

Family allowances extended for full period of enlistments and reenlistments made prior to July 1, 1946.

The navy recruiting station is located in the Post Office Bldg.

Your Health and It's Care

By DR. WILLIAM BRADY, M.D. Readers should address inquiries to: Dr. William Brady, 265 El Camino Beverly Hills, Calif.

SO YOU'RE TAKING VITAMIN "SHOTS"? I suppose it'll become me to say so, but I hate that term "shots" as a synonym for hypodermic, subcutaneous, intramuscular or intravenous injections. But then, some refined readers do not like some of the terms I use.

On analyzing the matter I infer that my dislike of the term is associated with the early days of practice in Penn Yan, I was pretty young and harassed by the fear that the country folk would not have any confidence in a doctor who had not yet cut all of his teeth. So I tried to compensate for my youth by putting on a lot of dignity. It seemed to work fairly well for the first few weeks. Then my brother Andy, who resembled me, paid me a visit. While in town Andy missed no bet in the way of parties, dances and shindies in all strata. The people at these affairs mistook Andy for me, called him "Doc", and when Andy got hept to the situation he did cut loose and had the time of his life. Then he went home—and it took me a long while after that to scowl down the astonished folks who, meaning to continue on pleasant terms, greeted me as "Doc". "Doc" and the kind of dignity I had to wear or thought I had to wear, are just not compatible. Now, as you may have guessed, I go without my hat, overcoat and dignity all the time, and I don't care whether anybody calls me "Doc"—although I would not so address a physician, dentist or person with a doctorate degree.

QUESTIONS & ANSWERS... Salt in Hot Weather... Please advise whether one should exclude salty things from the diet when one suffers from the extreme heat? Mrs. W. L. 1. Answer—Generally it is better to take extra salt in very hot weather, especially if you sweat much. It prevents heat exhaustion, makes water more refreshing, prevents heat cramps, etc. Take a good pinch of salt along with every large drink of water or other beverage, when the weather is very hot or when you are exposed to great heat, either from the sun or artificial heat. Psoriasis... I would like to get instructions for the use of iodine and vitamins to prevent development of psoriasis. (P. B.) Answer—Send stamped envelope bearing your address, for pamphlet on Psoriasis. Enclose twenty-five cents coin if you want a copy of booklet "Save Your Teeth." (Copyright 1945 by John F. Dille Co.)
