

CHRISTMAS SEALS ARE PREPARED FOR MAILS IN COUNTY

Folding of Christmas seals, preparatory to their distribution through the county November 19, was started yesterday by Virginia Gibbons, Jocelyn Bauer, Shannon Greene, Susan Hubbard, Jeanne, Dianne and Jackie Findley. Praising the workers who volunteered their services for this job, John S. Day, Medford chairman, said that these young volunteers were making an important contribution to the welfare of the community.

"The services of these volunteers," she said, "enable the Jackson County Public Health association to keep the cost of running the seal sale at an absolute minimum, thus assuring that the money raised through health projects such as the mobile X-ray, which comes to Jackson county Nov. 27.

"These volunteers are making a definite contribution toward raising the health standards of our community. There is nothing dramatic or glamorous about folding sheets of seals and inserting them in envelopes, but it is a job that has to be done if we are to raise money to fight tuberculosis at home.

"Our homes are not secure as long as they are exposed to tuberculosis which kills more persons between the ages of 15 and 45 than any other disease. The

tuberculosis association has for 39 years been waging a fight against disease. Its success depends each year on the generosity of our people in the purchase and use of Christmas Seals. I am confident that the response to the 1945 seal sale will be so universal that the association will be able to expand its activities in the coming year."

Mrs. Glenn A. Gibbons will head the county-wide committee which will direct the 1945 sale of Christmas seals to raise funds for tuberculosis control work. The 39th annual seal sale throughout the nation, in which the Jackson County Public Health Association participates, will open Nov. 19 and continue until Christmas.

The sale of seals, Mrs. Elwood Hedberg, association president, explained, is the sole means of support of the Jackson County Public Health Association's year-round program for the prevention and control of tuberculosis.

This year's major project is the offering of free chest X-rays to all Jackson county citizens, beginning Nov. 27, when the X-ray machine, on wheels, rolls into Jackson county.
