The Oregon High School Activities association plans to do something about small schools getting the playoff games in the Oregon high school football race, according to an article in Monday's Oregon Journal.

The article says the OHSAA agrees hard and fast rules are necessary to clear up the situation. An attempt will be made to place the titular games on a share-and-share-alike basis throughout the state, the story further comments. However, it was further stated, an underlying power in the association is the necessity of raising a great deal of the association's funds through football games, thus only those cities and towns with reasonably large grid stadiums likely will be considered for such games.

for the game and Coach Jim (Mush) Torson sends like word from Portland. The game is going to be one of the toughest contests seen on the local turf in many a moon with odds about as even as they can get. The only comparative scores against mutual opponents are against Klamath Falls, beaten the first game of the season by Grant 29-7 and walloped in mid-season by Medford, 51 to 0. Grant has scored 184 points in eight games against 31 by their opponents while the Tornado has piled up 478 against their foes' 29.

Independent basketball is slowly getting started after a four-year shutdown because of the war. Hotel Medford and Medford Athletic Association are sponsoring teams with the Central Point Athletic Association also coming in. A full schedule will be drawn up for the teams, it is planned.

For the past few weeks Coach Tex Oliver has been the subject of considerable paning in the University of Oregon's daily newspaper, The Emerald. Letters to the sports editor of the Emerald suggest an Al-Simpson-for-Coach movement. A letter to this department from a student at the university says the Simpson-for-Coach movement is gaining considerable momentum on the campus.

BEWARE OF PIN-WORMS

Recent medical reports reveal that an amazing number of children and grown-ups may be victims of Pin-Worms—often without suspecting what is wrong!

Watch out for the warning signs that may mean Pin-Worms in your child or yourself—especially the tormenting, embarrassing rectal itch. Because now you can and should do something about it. After centuries of distress caused by Pin-Worms, a highly effective way to deal with them has been made possible. It is based on the medically recognized drug called gentian violet.

This special drug is the vital ingredient in P.W., the Pin-Worm tablets developed in the laboratories of Dr. D. Jarne & Son. P.W. tablets are small and easy to take, and they act in a special way to remove Pin-Worms.

So if you suspect this ugly infection, ask your druggist for JAYNE'S P.W. and follow the directions. Satisfaction guaranteed or your money back.

It's easy to remember: P.W. for Pin-Worms!
