## RAINS BENEFICIAL TO GRAINS AND PASTURE

Rains falling over the county generally the past week-end were beneficial to fall sown grain and snow in the high hills improved the 1946 irrigation water prospects, the county agent's office reports. Some of the grain has started to grow. The rains also spurred pastures and started grass growing on the lower ranges. In some sections stockmen have started feeding hay to stock.

## BACKACHE, LEG PAINS MAY BE DANGER SIGN

**Of Tired Kidneys**  
If backache and leg pains are making you miserable, don't just complain and do nothing about them. Nature may be warning you that your kidneys need attention. The kidneys are Nature's chief way of taking excess acids and poisonous waste out of the blood. They help most people pass about a pint a day. If the 15 miles of kidney tubes and filters don't work well, poisonous waste matter stays in the blood. These poisons may start nagging headaches, rheumatic pains, loss of pep and energy, getting up, head aches, swelling, puffiness under the eyes, backache and dizziness. Prevention is most important. Early and intelligent treatment sometimes shows where something wrong with your kidneys or bladder. Don't wait! Ask your druggist for Doan's Pills, a stimulant diuretic, used successfully by millions for over 40 years. Doan's gives happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from the blood. Get Doan's Pills.
