COUNTY MINING BODY SUPPORTS CORDON MEASURE

The Jackson County Mining association, at a recent meeting in Jacksonville, adopted the Western Mining Council's resolution on the Cordon Bill concerning O and C lands, it has been announced. The bill specifies opening to the public of O and C lands and permission of mining thereon under jurisdiction of United States mining laws.

The association also adopted a resolution urging Oregon's congressmen to give full support to increasing the price of gold to enable western miners to compete with foreign countries.

The group also went on record as favoring a George White Memorial hospital for veterans, taking over permanently Camp White hospital facilities.

A legislative committee, with Mr. Florence Hall as chairman, and Fred Kelley, H. K. Hanna, Floyd Dover, Don Stansell and Robert Cram as members, has been organized and will handle matters pertaining to legislature. A committee was also named to study development of atomic energy.

Jacksonville has been selected as the permanent home of the mining association, according to a decision reached at a recent meeting. The group also voted to support formation of a Mining Property Exchange and to affiliate with the Jacksonville Chamber of Commerce.

New members of the association are O. E. Bailey, John Luyhen, Sherman Pool, A. M. Pool, E. F. Bowers and Lester P. Mathes. Anyone interested in mining development in the west is invited to join, it was stated.

An assay and analysis office has been set up at 20 Laurel street by Dana W. Bowers, according to an announcement by the association.

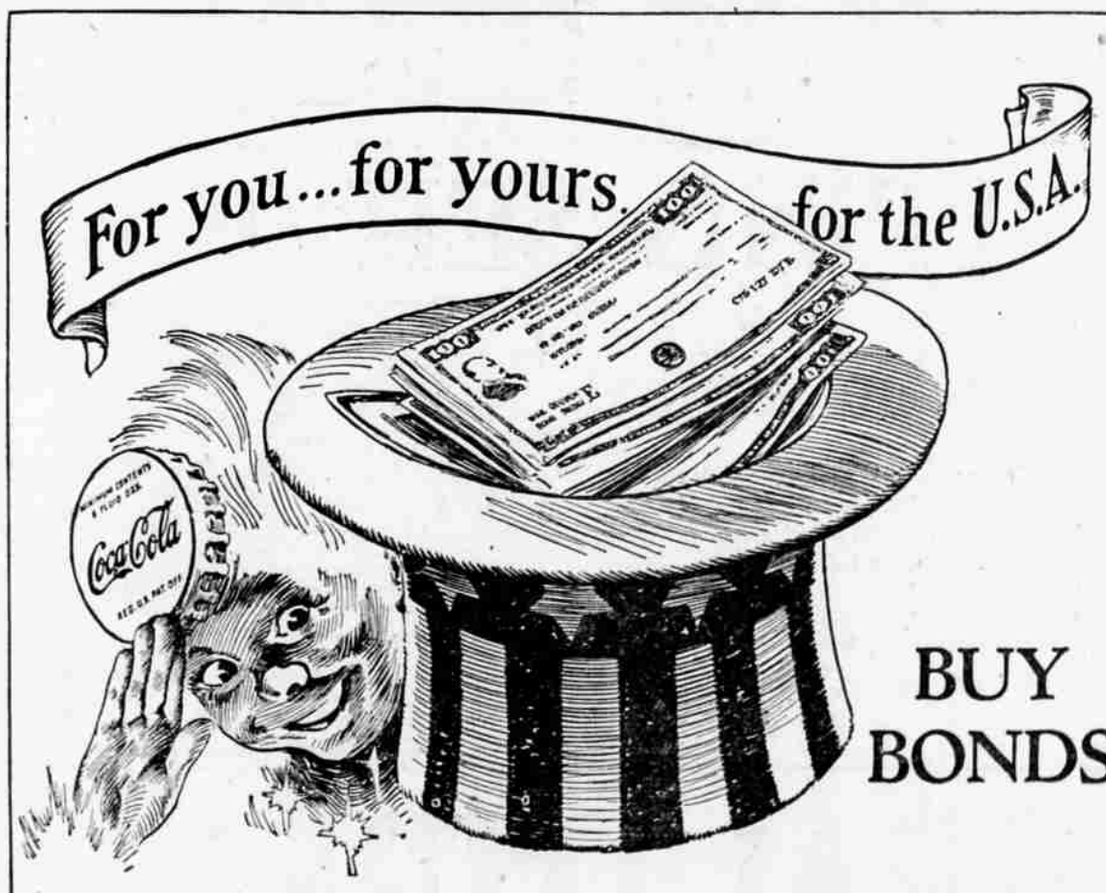
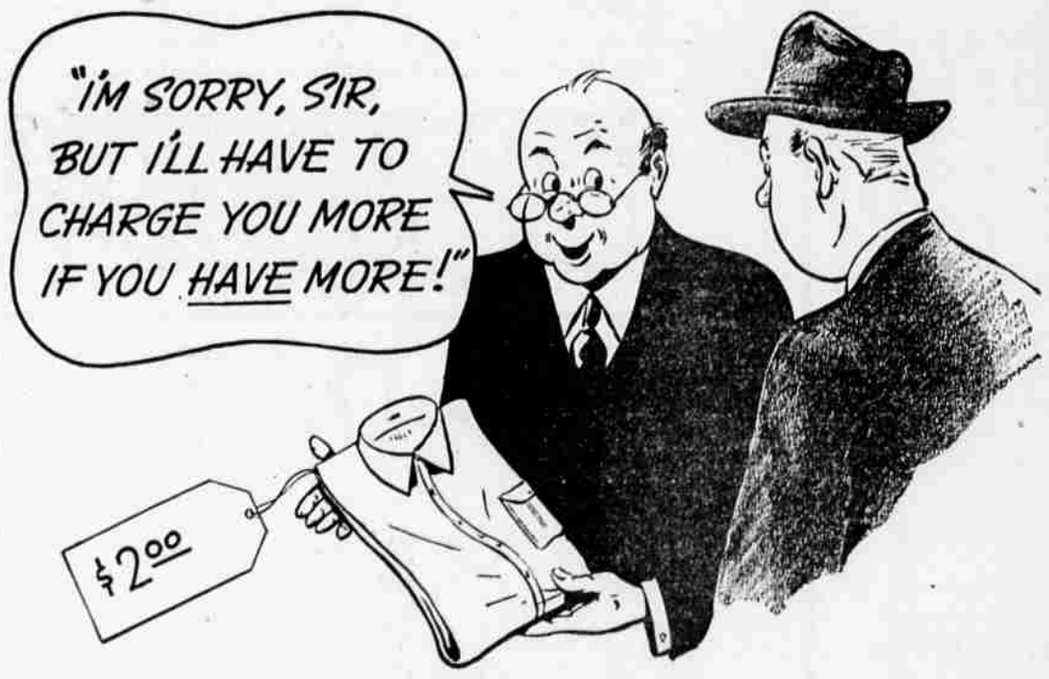
COME AND BRING YOUR FRIENDS





How much can you pay?

What would you think if the clerk at your favorite store asked to see what you had in your wallet before he decided what to charge you for a shirt?—

Or if, just because you happened to have some money saved up, you were asked to pay more than other people for a haircut, a movie ticket, or even such important items as rent, food and clothing.

That's exactly the kind of reasoning UAW-CIO leaders are using in their wage demands on General Motors—

They point to funds we have saved up over the years to expand and improve our plants and provide more jobs and more production. They say, "Give us that in higher wages."

General Motors does not go along with that kind of reasoning. People should *not* have to *pay more* just because they have a savings account—

For many years we have used our savings to expand capacity, create more jobs and provide greater values.

And we intend to keep on doing just that. We are, at present, embarked on a very important reconversion and postwar expansion program. Our objective, now as always—to produce more and better things for more people.
