Ye Smudge Pot

By Arthur Perry. Some spring-like winter was on tap, with several lingering pink sunrises and raspberry red sunsets the past week. F. Luy, the Antelope-Phoenix cowman who has been on the shelf, is himself again and able to Yipe-e-e!

Citizens have started to report the breeze is tempered to their neighbor's yard, and blows his leaves upon their lawn.

Ed Kubll and boy Norm of the Applegate towed Wed, with a load of bulls, destined to be hamburger.

Royal and Bill Brown of the E. Pt. Browns report a lack of pigs, with which to make sausage.

Signs of peace keep popping up. A man refused to sell his house, and French fried potatoes, appeared on local menus the past week.

The juvenile element have started writing letters to S. Claus. If S. Claus can read some of them, he is a dandy.

Len Carpenter of the ranch set was seen on the Main Stem Tues. He was spruced up and late to a committee meeting.

Jack Dempsey, former heavyweight champion was here Tues. It would be hard to find a more pleasant man when not wearing boxing gloves.

Rationing ended Fri. for everything but tires and sugar, and is cause for observing another Thanksgiving next Thursday. Beefsteaks will again be procurable, without red points. Everybody will now get 165 pounds of beef per year, and there is enough in cold storage lockers to fatten the rest of the world.

The B. Tornado suffered its first defeat in 23 games Turkey Day, when it was out-lucked by Grand High of Portland. The victors gained two first downs, in the entire contest. They will need more than that, along with a potent rabbit's foot and the Multnomah field mud, in the final test.

Trial of the Nazi war heads and hop-heads is now underway at Nurnberg, Germany, and some bending backwards to assure the defendants a fair trial are being executed, instead of the defendants.

The wind blew Thurs. and Sat. and at times attained the speed of a country boy on a motorcycle.

Mrs. J. Cochran Robin is now in winter quarters, and has an apartment under the eaves of a Phoenix barn. She has been indisposed from eating frozen pumpkin served to her chicken neighbors. "It serves her right," laughingly stated her mate. "She should scold me for eating frozen pears, and getting gay doing it."

Eino Hennila has been repatriated from G. Pass, where he spent 6 months.

G. I. PREFERENCES. Sacramento, Nov. 24—(U.P.)—The California Veterans' institute today reported a strong preference for professional training among returning soldiers who are receiving state educational aid.

Kentucky ranks second only to North Carolina in tobacco production.

X-Rays For All This Week

THE Jackson County Public Health association has earned the gratitude of the people of this community in bringing a mobile X-ray unit here this week to ferret out the stealthy and deadly tubercle bacillus, high on the list of public enemies.

And the best way to express this gratitude is to extend full and wholehearted support to this far-sighted, far-reaching health program.

THE mobile unit can take as many as 160 35mm X-ray pictures in a single hour, and these tiny pictures reveal the presence of lurking tubercle bacillus in the early, curable stages of tuberculosis, often before outward symptoms appear. Those whose films show positive reaction (statistics clearly show that unknown carriers are right here and in every community) will be personally notified by the county public health officer. Results of the simple test are entirely confidential. To those who might unknowingly have the disease we offer the encouragement that it can be cured if discovered in its early stages. The test is brief, easy, free.

TUBERCULOSIS is "catching", not inherited. It is preventable, too, which accounts for this energetic campaign throughout Oregon. Deaths which it causes have steadily declined as public enlightenment has increased in recent years. In sending mobile X-ray units forth, the public health services are bringing up the heavy artillery and tanks in a determined attack upon a disease suffered by a half-million Americans.

THE mobile X-ray unit opens its Jackson county campaign at Gold Hill Tuesday, November 27, moving on to Central Point Wednesday and to Medford Thursday where it remains until December 4. On December 5 and 6 it will cover the Ashland area. Those who find it impossible to be X-rayed during the day may visit the unit Friday evening. As the danger time for tuberculosis lies between 30 and 59 years of age, emphasis will be placed upon men and women in that age group.

THE mobile X-ray program takes its place along with six other major steps in the long and gallant crusade against "consumption". First was Luetwjenhoek and the microscope, then Pasteur who told men that microbes caused disease. Robert Koch was the first to isolate the tuberculous germ. Edward Trudeau, in his little red cottage in New York state, introduced the first tuberculosis sanatorium — and then William Roentgen's X-ray enabled doctors to see the very first signs of the disease.

SINCE 1907, the little Christmas Seal that insures health as well as cheer at Yuletide, has footed most of the bills in the long fight against tuberculosis. The visit of the mobile X-ray unit here this week is one of the dividends earned by generous purchases of these little seals in Jackson County. It is another reason that we should buy more of them than ever this Christmastime.—H.G.

TOJO'S TRIAL FOR ATTACK ON PEARL HARBOR TO WAIT

Washington, Nov. 24—(U.P.)—The U. S. government has rejected urgent and repeated recommendations of Gen. Douglas MacArthur for immediate trial of former Japanese Premier Hideki Tojo for offenses against the United States, it was learned tonight, and has decreed that instead Tojo must be tried first as an international war criminal. In an exchange of messages with the war department over a period of more than six weeks, it was learned, MacArthur repeatedly recommended an immediate trial of the Jap war lord responsible for the sneak attack of Dec. 7, 1941, on Pearl Harbor. The war department disclosed last night that because of international aspects MacArthur has been forbidden to proceed immediately, as he wished to do, with the trial of Tojo, or with the trials of other Japanese officials who might be charged with waging a war of aggression in violation of international treaties. The state department, the announcement said, is consulting with other governments concerned, and Tojo's prosecution, presumably on an international basis, will begin at "the earliest practicable date."

Bay City Grocers Deny Strike Plan

San Francisco, Nov. 24—(U.P.)—Immediate threat of a city-wide closing of 600 grocery stores in "sympathy" with 78 strike-bound Safeway stores ended tonight in disagreement among members of the San Francisco Retail Grocers association. Charles Savio, association president, flatly denied the stores were planning a sympathy shut-down.

Texas is the leading state in civil aviation with 294 airports and 1,815 civilian aircraft. California is second in airports with 260 and Pennsylvania is second in civilian aircraft with 1,715.

ITALY'S PREMIER FORCED TO QUIT; SEES CIVIL WAR

Rome, Nov. 24—(U.P.)—Premier Ferruccio Parri, who was forced to resign, warned his successors to "beware of civil war" as tens of thousands of persons joined in mass protests against the resignation. The original stipulation of the six-party coalition government formed last June to replace Ivan Bonomi's government provided that the premier resign if any participating parties withdrew from the cabinet. The three parties of the right resigned over differences on broadening the cabinet and Parri quit this morning. Discontent with the forced resignation spread rapidly throughout Rome and a demonstrating crowd of 2,000 workers swelled to tens of thousands in half an hour. The crowd marched to Viminale palace shouting "We want Parri." A huge crowd gathered outside the Committee of National Liberation building carrying signs saying "Out with the House of Savoy" and "Down With the Monarchists."

There were no incidents, however. In Milan, all workers quit for 15 minutes in protest. Parri, speaking to members of the committee of national liberation in a meeting at the Viminale palace as the crowds demonstrated outside, warned that an undercurrent of fascism lies just below the surface in Italy today.

Chicago Parks To Get Fir Seedlings

Eugene, Ore., Nov. 24—(U.P.)—H. J. Cox, manager of the Willamette Valley Lumbermen's association, tonight neared Chicago with a fir seedling, which he will present on Tuesday to Robert Dunham, president of the Chicago park district. Cox, who was going to Chicago on other business, took along the tree as a symbol of the Oregon lumber industry and the big market in Chicago. In 1941 the state of Louisiana spent \$12,864,000 for highway maintenance.

PHYSICIAN'S WIFE TO TRIAL MONDAY ON DEATH CHARGE

Hopes For Sanity Verdict—Slew Nurse She Suspected As Rival

San Francisco, Nov. 24—(U.P.)—Former Socialite Mrs. Annie Irene Mansfeldt, whose trial on charges of murdering the nurse she suspected was a rival of her doctor-husband's affections opens Monday, tonight nervously paced her jail cell and hoped to be judged sane.

Haggard after 54 days in city prison following the fatal shooting Oct. 4 of Mrs. Vada Martin, pretty 36-year-old registered nurse, Mrs. Mansfeldt announced: "If there must be punishment, I am ready for it."

"I don't wish to be adjudged insane—for my children's sake," she said. "My best hope is that I may be found sane and permitted the privilege of carrying on, perhaps with psychological help, in bringing up my children."

She is the mother of three children and the widow of Dr. John Mansfeldt, prominent society physician who swallowed a fatal dose of barbituric acid a few hours after his wife drove to the hospital and announced she "had a dead woman" in the front seat of the Mansfeldt automobile.

Selection of a jury from a panel of 100 veniremen begins Monday before Superior Judge Edward Murphy. The San Francisco district attorney's office has announced it will prosecute for first degree murder but will leave the death penalty decision "up to the jury." The red-haired former California beauty queen — still attractive despite hollow, dark rings around her eyes — already has pleaded not guilty and not guilty by reason of insanity, necessitating a double trial which both prosecution and defense estimate may take a month to complete.

RIOTING BREAKS OUT IN CALCUTTA

Calcutta, Nov. 24—(U.P.)—Rioting which began in Calcutta Wednesday as crowds protested the trial of former Indian officers of the Japanese-supported "Indian National Army" subsided today, while Bombay dispatched said police fired upon and dispersed a sympathy demonstration by students there. Bombay United Press reports said 500 students paraded in sympathy for the Calcutta demonstrators. They stoned policemen sent to control the demonstration, and three officers were injured. Police then fired and the crowd dispersed.

Obituary

SARAH FRANCES WOOD Sarah Frances Wood, 80, resident of Jackson county for 17 years, passed away at noon Thursday. She leaves one son, John Wood of Marsing, Ida., and four grandchildren. Also two sisters, Mary Bailey of Washington and Louise Boggess of Idaho. Funeral services will be held in the Conger-Morris chapel at 1:30 Monday with Rev. Louis C. Kirby officiating. Interment in Central Point cemetery.

Probation Granted For Good War Work

San Francisco, Nov. 24—(U.P.)—Five years probation was granted today to Otho Winter Moore, 53, ex-superintendent of a war production training school at Richmond shippards after he pleaded guilty to 10 counts of padding the school's attendance records. Federal Judge A. F. St. Sure granted probation after explaining that while Moore "didn't know how to keep books he educated 50,000 welders. In view of his accomplishments probation seems advisable," St. Sure said.

UNITED NATIONS PREPARE AGENDA FOR WORLD UNITY

London, Sunday, Nov. 25—(U.P.)—Final agreement of the agenda of the 51 nation preparatory commission of the United Nations organization was reached early today clearing the way for the commission to start Monday on the task of laying the groundwork for world peace.

The commission meeting briefly for the first time yesterday, was told by British Minister of State Philip J. Noel-Baker that the UNO must devise some means of controlling atomic force lest it destroy mankind.

The first meeting came during daylong discussions by the executive committee, which held three sessions covering 11 hours before reaching final agreement at 2 a. m. Sunday on agenda, rules, procedure and general organization of the meeting.

The preparatory commission is to make arrangements for the first meeting of the world institution set up by the San Francisco charter. Noel-Baker, in a welcoming address, said the commission's task was modest but important because it must devise institutions for a united UNO, warning that it would be only through such institutions that the world could be turned into an organized society of mankind.

HALSEY WILL BE GRAND MARSHAL

Pasadena, Cal., Nov. 24—(U.P.)—Adm. William F. "Bull" Halsey today accepted an invitation to be grand marshal of the New Year's day tournament of roses but said he preferred a rose-covered auto rather than a white horse to ride in the parade.

"I must ask that my transportation in the procession be an automobile and not a white horse. My equestrian abilities, I am afraid, have been highly overrated," Halsey wrote Charles A. Strutt, president of the Tournament of Roses association, who asked the admiral whether he wanted a car or a white horse. The grand marshal sometimes uses a horse in previous parades. The 1946 tournament of roses, which will have a parade for the first time since the war started, will have as its theme: "Victory, Unity and Peace."

Valley Radio Club Election Thursday

Election of officers for the Rogue Valley Radio club will take place Thursday at 7:30 p. m. at the Chamber of Commerce building. All amateurs in good standing as of Dec. 7, 1941, to Sept. 15, 1942 have been reinstated, it was announced. Opening of the 10 meter band began Nov. 15 and the following frequencies are to be noted carefully: 28 mc to 29.1 mc for CW; 28.1 to 29.5 for AM phone; and 28.85 mc to 29.7 for FM phone. Information pertaining to amateur radio operations may be heard over WIAW, 7145kc, between 7:45 and 8 p. m. News of the citizens communication band, in the 400 mc region, is expected within a few weeks and licenses will be resumed as soon as printed.

FRISCO BOOSTER LANDS

London, Nov. 24—(U.P.)—Roger Lapham, 62-year-old mayor of San Francisco, arrived here today with a movie film of his city and a three-man delegation to help him bid for the seat of the United Nations Organization.
