

AMERICAN LEGION WORKING ON PLAN FOR OWN BUILDING

Medford American Legion Post's building and finance committees reported progress in a drive to place the local post in its own home by summer, at an enthusiastic meeting at the Armory Wednesday night.

The committees have been working hard during the past two weeks and they have several building sites, buildings and financial plans ready for early approval. A center-of-town location is desired and the building committee has been working with that idea in mind, according to Merle Jarmin, chairman. O. L. Overmyer is chairman of the special building finance committee.

Ranson Webster suggested that Medford Legionnaires invite Navy personnel from the Camp White hospital to their homes for Christmas dinner. All members present at the Wednesday night meeting went on record in

favor of the proposal. Plans are being made for Medford Post to cooperate with the national American Legion program of "Gifts for the Yanks Who Gave," by distributing Christmas gift packages to the men in the Camp White Naval hospital.

Sunday school meets every Sunday from 10 to 11 a. m. and there are classes for all age groups. All in the community are invited to attend the Sunday school services and the church service to follow from 11 to 12 noon.

Washington State Interested Third Party In Grid Go

Los Angeles, Nov. 30—(U.P.)—Washington State was an interested third party today to Saturday's battle between University of Southern California and UCLA, which could send the northern team to the Rose Bowl. A loss by USC would put Washington State, its season finished, into top spot in Pacific Coast conference standings and probably into the Rose Bowl opposite Alabama, the eastern representative.

If Southern California, six-point betting favorite, wins or ties, it will cinch the \$100,000 Rose Bowl bid with the best all-round seasonal record plus the mathematical conference crown.

A telegraphic ballot of conference members will be taken before name of the western Rose Bowl team is formally announced.

RECLAMATION CONGRESS OPPOSES PROPOSED CVA

Portland, Ore., Nov. 30—(U.P.)—Establishment of a proposed Columbia river valley authority was strongly opposed today by the Oregon Reclamation congress, meeting here, with delegates declaring the nationalization of projects in the river system of the west a "menace to state rights, self-government and the principle of home rule."

Treating the subject broadly, the congress is opposing "the policy of the federal government taking and keeping control over the consumptive uses of water in the west" and urged Oregon's congressional delegation to oppose such a policy.

Dr. William Gilbert of England, court physician to Queen Elizabeth, announced in 1600 that the earth itself possesses the properties of a magnet.
