# OUR 1435th VISIT

**T**HAT'S right—this is our 1435th visit to your house on this page of the Mail Tribune.

Not many folks have been to your house so many times or so frequently. Those who have are your best and most intimate friends . . . folks you have been glad to welcome because they added much to the joy of living. Our visits . . . although of an impersonal nature . . . had the same purpose in mind. We too, felt that we could add something to your home life.

Nothing is so important to home life as food. It can promote or destroy the harmony of the family meal-hour — the only complete assembly of the family group in many homes. It can also add to or detract from the fellowship of any feast. Then there is the matter of family health and nutrition, as well as the drain on the family purse.

All in all, our visits were made with a definite purpose in view — to assist in promoting Health, Happiness and Financial security in your home thus assuring our own ultimate success.

That we have succeeded to a degree is very gratifying. For more than 25 years we have not even once forgotten how important good food is to your welfare and ours and have conscientiously tried to supply foods of such goodness and at such prices that we would prove ourselves essential to your home life.

Your constantly ever growing patronage will serve to stimulate us to even greater efforts to further assure you of these three greater Groceteria savings:

Health, Happiness and Financial Security
