Yankees Complete Plans To Rebuild Baseball Empire

New York, Jan. 8.—(U.P.)—The old and the new in the New York Yankee baseball empire completed long range plans today to blend their efforts toward restoration of the prestige they suffered when war depleted the rosters of all of its key clubs.

Representing the old regime was bluff Joe McCarthy, the most successful manager in major league history, who almost resigned last summer because of illness. Returning from the old guard to help him was Robert (Red) Rolfe, who leaves behind him a brief but successful career as Yale baseball and basketball coach to take over the head Yankee coaching job.

New Order Ambitious

The new order, which came in when Larry MacPhail took over as president after he and associates purchased the club last year, is as ambitious as the old Yankee group was conservative.

MacPhail announced that he had named Parke Carroll, former business manager of the Minneapolis club of the American Association as general manager of the Newark farm club. Appointment of Carroll to the

TOUGH TIME FOR "MEANIES" SEEN IN BATTLE ROYAL

A six-man battle royal ushers in the 1946 professional wrestling season at Medford armory tomorrow night when Promoter Mack Lillard puts the cream of the crop now on the west coast in the squared circle.

There will be approximately 1,000 pounds of human flesh in the ring at the same time as the behemoth square off in the melee at 8:30 p. m. Following the battle royal will be three regulation matches for three rounds or one fall each with pairings to be decided in order of elimination in the free-for-all.

It is rarely that the mean-tempered participants will stick together during a battle royal and tomorrow night's go is expected to be no exception. Neither Pete Belcastro nor Jack Lipscomb trust each other and, if they do team up, aren't expected to stick it out long. Earl Malone has not been in the ring with Belcastro or Lipscomb before but has heard enough about them that he probably will go it alone in his particular rough-house manner.

Angelo Martinelli, Gust Johnson, and Herb Parks, who keep their wrestling as clean as milk, probably will take advantage of the unfriendliness of the "meanies" by teaming up and administering a thorough beat-

Byron Nelson Shoots Steady Golf To Cop Los Angeles Open Tourney

Los Angeles, Jan. 8.—(U.P.)—Byron Nelson headed north for the San Francisco open today with \$2,686 first money in his pocket from the Los Angeles open.

Nelson so outdistanced the field it was almost "no contest" in his winning yesterday. The Toledo, O., salesman won with a 284—the highest winning score since 1935.

His nearest competitor—five strokes back—was Ben Hogan, Hershey, Pa., with a 289.

Steady Game

Nelson played his usual steady game. He didn't get off any crowd-whooping drives, but always was down the middle; he didn't hit the pin with his approaches, but he always was on the green; and he sunk very few of those 20-foot putts, but he always was close.

He put together scores 71-69-72-72—284—over the tricky Riviera Country Club course. There were a lot of 69s during the tournament, but only one score better—the 68 compiled by Sammy Sneed on opening day.

Sneed blew up yesterday, he took a 78, and finished in a tie for 10th place.

Hogan's 289 paid \$1,866.67 and third place was split between Chandler Harper, Portsmouth, Va., Jimmy Demaret, Houston, Tex., and Jim Ferrier, Chicago, each with 290 and \$1,111.11.

Blaze Burns Hay At Santa Anita

Arcadia, Cal., Jan. 8.—(U.P.)—A spectacular \$50,000 blaze last night destroyed large stocks of hay and straw stored for Santa Anita's racing thoroughbreds and attracted hundreds of spectators fearful for the safety of race horses stabled nearby.

The barn in which the feed and bedding were stored was razed, but the horses stabled a quarter of a mile away were uninjured. The supplies comprised about 70 per cent of the racing stables' demands, Charles E. (Boots) Durness, owner, said.

PROSELYTING TO HIGHLIGHT NCAA ANNUAL MEETING

St. Louis, Jan. 8.—(U.P.)—A showdown on just how much schools under jurisdiction of the National Collegiate Athletic Association can compensate athletes was expected today to highlight the annual convention of the body.

Although no direct action may be taken, the matter is certain to come up in the executive sessions of the meeting. In the past the association has acted as an advisory body, but because of the impending era of prosperity for college sports, it may be forced to take action.

Policy Sought

The association members range from the Eastern Ivy League group which recently took drastic steps to put football under stricter control and which specifically banned recruiting, athletic scholarships, and other aspects of commercialization to the Southeastern Conference which openly pays scholarships to standout athletes.

A number of delegates said they hoped that some sort of a standard policy for all sections of the country could be worked out by the N.C.A.A., but admitted that it might take a long time to do such a job.

A vigorous opponent of proselyting, Dr. Arthur Holly Compton, Washington university chancellor and atom bomb scientist, may ask the colleges to take a stand against it when he addresses the executive council dinner in a keynote speech tonight.

Butte Falls Beats Gold Hill Quintet

Gold Hill, Jan. 8.—Butte Falls high school eked out a 30 to 27 "B" league basketball victory over Gold Hill here Friday night. Ellis, Butte Falls, paced the scorers with 17 points.

Gold Hill won the preliminary game by downing the Logger reserves by a 38 to 20 count. Dusenberry chalked up 19 points for Gold Hill. Roland Parks of Ashland refereed the games.

A "Look at the Books" or "A Finger in the Pie"?

Which is the UAW-CIO really after? Is it seeking facts—or new economic power? Does it want to know things—or run things?

These questions concern you as well as General Motors.

For years the facts about General Motors have been made public.

In spite of this, the UAW-CIO demands a chance to look at our books, with the hint that we could meet Union demands "if the truth were really known."

We have firmly declined to recognize this as a basis for bargaining.

1. The Full Facts are Published

How much General Motors takes in each year—how much it pays employees—how much it pays to stockholders—how much it pays in taxes—how much net profit we make—and many other facts are plainly stated in annual reports and quarterly reports.

These are broadcast to 425,000 stockholders from coast to coast—sent to newspapers and libraries. Additional copies are free for the asking.

2. All Figures are Thoroughly Checked

Every General Motors Annual Statement is audited by outside auditors. Similar figures are filed with the Securities & Exchange Commission.

Does the UAW-CIO honestly believe that General Motors would or could deceive these experts?

3. The Basis of Collective Bargaining is Defined

The Wagner Act lays down the rules for collective bargaining. These cover such areas as rates of pay, hours of work, working conditions.

No mention is made of earnings, prices, sales volume, taxes and the like. These are recognized as the problems of management.

4. Something New has been Added

The obvious fact is that the UAW-CIO has gone beyond its rights under the law—and is reaching not for information but for new power—not for a look at past figures, but for the power to sit in on forecasting and planning the future.

A "look at the books" is a clever catch phrase intended as an opening wedge whereby Unions hope to pry their way into the whole field of management.

It leads surely to the day when Union bosses, under threat of strike, will demand the right to tell what we can make, when we can make it, where we can make it, and how much we must charge you—all with an eye on what labor can take out of the business, rather than on the value that goes into the product.

5. This Threatens All Business

If the Union can do this in the case of General Motors, it can do it to every business in this land of ours.

Is this just imagination? Union spokesmen have said, "The Union has stated time after time that this issue is bigger than just an ordinary wage argument, that it is bigger than the Corporation and bigger than the Union."

For Labor Unions to use the monopolistic power of their vast membership to extend the scope of wage negotiations to include more than wages, hours and working conditions is the first step toward handing the management of business over to the Union bosses.

We therefore reject the idea of a "look at the books" not because we have anything to hide but because the idea itself hides a threat to GM, to all business, and to you, the public.
