TALENT PATRONS FAVOR BALLOT ON SCHOOL MERGING

Talent, Jan. 25.—An election in the local school district to determine its stand in regard to consolidating with Phoenix or building a union high school for the two districts was favored by the majority of approximately 40 persons who met in the gymnasium here last night to discuss the matter.

Frank Dunkin, director of the school board, in an interview this morning said, however, that opinion was divided on the two proposals and which one would go on the ballot would be decided after a meeting of the two school boards January 28. More favor was shown for unification or consolidation than for making additions to the present Talent school facilities. The election will not be held until after March 1.

Consensus of those for combining the schools is that benefits would be manifold, in better and more adequate facilities for modern educational programs and wider variety of subjects possible.

The matter of continuing the hot lunch program in the Talent schools when government subsidies run out in March was also brought up at the meeting Dunkin said. Most of the group wanted the complete lunches served at raised price.

Turnout for the discussion was considered fair in size according to Dunkin.

TREES ORDERED FOR CITY PARK

A preliminary order for 220 trees, to be planted in the new city park on East Main street, was given last week in a contract let by the city to the Carlton Nursery, Pacific highway, Frank Rogers, city superintendent, said today.

The plants, valued at approximately \$750, are to be mostly natives of Oregon, according to the superintendent, but as some trees cannot be purchased at this time, substitutions have been made.

Planting is to begin in the planting area of the park, as outlined by the park engineer, L. Glenn Hall, as soon as plans arrive from the planning commission in San Francisco, Rogers said.
