## LYNAM SIGNS TO FACE BELCASTRO IN RETURN BOUT

Joe Lynam, coast Junior heavyweight champion, yesterday signed the necessary documents for a return match with Pete Belcastro, the Wild Weed Assassin, as the top bout of Wednesday night's wrestling card at Medford armory. Promoter Mack Lillard has announced.

Lillard said the matches would start at 8:45 p. m. to enable people to get from the Ashland Elks-Klamath Falls Mar-

lines basketball game to the matches in time to see most of the card.

Chester Hayes, all-service champion of the Hawaiian Islands, will make his southern Oregon debut in the middle event when he takes on tough Jack (Buck) Lipscomb in the four round go. Hayes is a clever and scientific workman, relying on leverage and skill to win his matches.

Pierre LaBelle, French-Canadian who, like Hayes, is a skilled performer, tangles with Herb Parks, Canadian champion, in the opening mix. Both are lightning fast muscle mangers and should give the fans a thrilling run for their money.

## JACKSON COUNTY FAIRS EXPECTED TO BE RESUMED

A county fair in Jackson county was a possibility today when it was announced that the army was about to evacuate the fairgrounds at the south edge of the city limits. The county has not had a major fair since 1932, according to R. G. Fowler, county agent and executive chairman of the fair board. At that time the Civilian Conservation Corps took over the fairgrounds, after which the army set up installations.

There is considerable work which must be done on the buildings before they will be in condition for another fair, Fowler said. All plans for repairing of the buildings have been completed and are in the hands of army engineers in Portland, who will direct the work, according to Fowler.

**Streets Improved**  
Streets and bridges of the grounds have been greatly improved under army occupation, the chairman stated. The half-mile track needs some repairing and surfacing, he added.

Para-mutual betting on horse racing also has entered into the picture, according to Fowler. Since the last fair was held here, the state has legalized para-mutual betting which has been adopted by most county fairs in the state, he said. Whether or not this will be done here remains upon a decision of the county court and the fair board.

The county court is expected to name a new fair board in about two weeks, after which more detailed plans for resumption of the fairs will be discussed.

## Tracy, Lubin Labor Bureau Aides Quit

Washington, Jan. 26—(U.P.)—Officials and employees of the Labor department will honor retiring Assistant Secretary Daniel W. Tracy at a dinner Feb. 4, the Labor department announced today.

Secretary of Labor Lewis B. Schwellenbach will address the gathering.

nese radar equipment almost duplicates American equipment, but added that the Japanese became indignant when accused of copying.

He said the Japanese apparently captured some American radar in the Philippines and then set about to copy it exactly. Japan might have caught up with the U. S. in radar, Hobbs said, if the war had lasted several more months.

"But as it was, their equipment was far inferior to ours, although they were making excellent progress in developing radio detection and ranging equipment," he said.

## Who pays the wages?

Men and women who work for wages get their pay checks from the company. Where does the company get its money?

Obviously, from the sale of its products. In other words, from other men and women who buy what workers make.

Most of what the customer pays goes for wages, directly and indirectly.

If workers ask too much for their services, the

prices of the products they make get too high. Fewer customers are able to buy.

he result is fewer sales and fewer jobs.

For the sake of employees, just as much as for the sake of investors, management must keep in mind the fact that the customer pays the wages.

Thus, in the long run sales and jobs grow from a proper balance between wages and prices.
