Your Health and It's Care
By DR. WILLIAM BRADY M.D.
Readers should address inquiries to: Dr. William Brady.
265 El Camino Beverly Hills Calif.

AS YOU LOOK, AS YOU FEEL OR AS YOU ARE?
Most familiar to doctors, I suppose, is the saying "A man is as old as his arteries"—which I had credited to Dr. Osler, but I find that Dr. Osler merely quoted it as an axiom (he probably didn't know its origin)—it is not even mentioned in Bartlett's Familiar Quotations, but after all, Bartlett is snooty about sources and, like most of the intellectual snobs, rejects anything anatomical or physiological as too vulgar to mention in polite discourse.

A more modern and worldly tool maker, Burton Stevenson, throws some light on it in his Home Book of Quotations, attributing the saying to the late lamented sage of Battle Creek, Dr. J. H. Kellogg, who in turn quoted it from "an eminent French physiologist"—so here we are again right where we started. Stevenson further cites one Mortimer Collins as the immortal rhymer who produced this jingle:

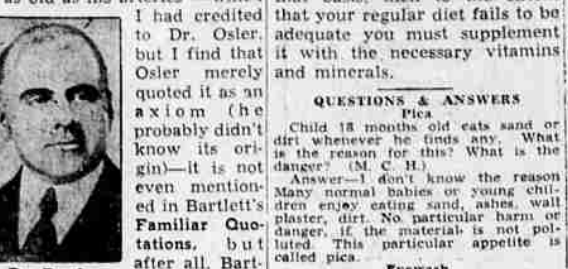

O wherefore our age be revealing?
Leave that to the registry books!
A man is as old as he's feeling,
A woman as old as she looks.
It was Oliver Wendell Holmes, M.D., who advised people who want to stay young and live long to begin a hundred years before they are born, selecting sound ancestors.

It was Osler again who said it depends on the quality of arterial tissue (vital rubber) which the individual has inherited and secondly upon the amount of wear and tear to which he has subjected it.

There is truth as well as poetry in all these wise sayings. Yet when we tote it up it seems to me that if grandfather was fairly sober and in fairly good health the year before father or mother was born the quality of vital rubber in the old boy was not so all-fired important to me. Anyway, I'm stuck with what ever stuff was in me when I was born, and from there on I'm strictly on my own and everything depends on the care I take of my arteries and other appurtenances as well as wear and tear.

Whether you are thirty, fifty or seventy you will learn something to the "advantage of your arteries and your longevity. I sincerely believe, by reading the booklet "The 7 Keys to Vite"—that is, if you use the keys in your everyday living. Send twenty-five cents and stamped self addressed envelope for the booklet. Briefly the keys are: 1. Save your teeth; 2. Temperance; 3. Belly Breathing; 4. Nudity; 5. Iodin Ration; 6. Daily exercises; 7. Rejuvenation diet.

The rejuvenation diet is simply a diet built upon the outline of a basic health diet, otherwise called regeneration diet, corrective protective diet, adequate diet—in the sense of supplying all of the essentials for good nu

Dr. Brady about sources and, like most of the intellectual snobs, rejects anything anatomical or physiological as too vulgar to mention in polite discourse.

QUESTIONS & ANSWERS
Child 18 months old eats sand or dirt whenever he finds any. What is the reason for this? What is the danger? (M. C. H.)
Answer—I don't know the reason. Many normal babies or young children enjoy eating sand and ashes, wait plaster, dirt. No particular harm or danger, if the material is not polluted. This particular appetite is called pica.

Eyewash
Some time ago you recommended boric acid solution as an all around non-irritating mildly antiseptic solution for eyewashes or eye wash, mouth wash, gargle, etc. Will you kindly reprint instructions? (Mrs. T. W.)
Answer—Use a solution of as much boric acid powder as will dissolve in water that has been boiled. Prepare the solution afresh when you need it—or every few days. Details of this and many other good home remedies in booklet "The Medicine Cupboard" mailed on request if you inclose twenty-five cents and stamped self addressed envelope.

Ten Dollar Term for Weakness
Please explain a neurological term appearing on my discharge paper (C. S. H.)
Answer—Neuro means nerve or nerves. You know what circulatory means. Asthenia means without strength, exhausted, weak.
