

AUTOMATIC GUNS MUST BE LISTED WITH TAX BUREAU

Firearms of the automatic type, such as machine guns, sub-machine guns, or any type of gun from which a number of shots or bullets may be discharged from one continuous pull of the trigger, must be registered with the Commissioner of Internal Revenue, Washington, D. C., through the Alcohol Tax Unit in Oregon, with offices at Portland, LaGrande, Klamath Falls and Eugene, according to a release from the treasury department.

Many of these firearms, brought or sent into this country from abroad by members of the armed forces and merchant marine, either with or without certificates signed by commanding officers, have not been registered, the release states.

Transfer Illegal

It is illegal to transfer firearms of the types described except by the payment of the \$200 tax as provided by law, according to the release. However, if the firearms are rendered unserviceable, they may be transferred tax-free as war trophies upon submission of the proper form to the Commissioner of Internal Revenue.

The National Firearms Act provides a penalty of a fine not to exceed \$2,000 or imprisonment not to exceed five years, or both, in the event any person is convicted on a charge of violating any provision of the act, which includes failure to register a firearm of the type described and transfer of such firearm without payment of the \$200 tax, the release concludes.

GRANGE REQUESTS SALE OF SURPLUS TO SERVICE MEN

A resolution demanding that the government make surplus materials available to returning veterans by establishing surplus property depots in each county seat was passed at a meeting of the Upper Applegate Grange No. 836 Dec. 20 and submitted to the press today. Copies of the resolution have been forwarded to congressmen and various federal officials.

The resolution sets forth that vast quantities of surplus war material, goods and equipment no longer required by the armed forces are being held in storage and that there has been "inexcusable delay" on the part of governmental agencies charged with disposition of these materials. It is further stated that since veterans have tried in vain to purchase these properties, the government should establish surplus property depots in each county seat, under state and federal supervision, and that in the selection of personnel to operate the depots, preference be given to disabled veterans in need of employment.

CAR SKIDS POND

Brazil, Ind. (U.P.)—Jack Trout sailed the Atlantic and Pacific oceans for nearly four years during the war without serious incident, but he almost drowned in two feet of water near here. His automobile slipped on a soft road shoulder, struck the dam of a small pond, overturned and skidded on its top through deep water to the opposite shore. Neighbors pried 8-foot-4-inch Trout from the car.
