COUNTY CHURCHES JOIN OBSERVANCE RED CROSS SUNDAY

Churches throughout Jackson county will join with religious groups throughout the nation this week-end in observance of Red Cross Sunday.

The observance precedes the opening of the Jackson County Red Cross chapter's fund campaign seeking support to carry on services provided in the community and to men in domestic and overseas camps and stations and in military and veterans' hospitals.

Stating that religious groups and the Red Cross have a common purpose in relieving the suffering of humanity, Seth M. Bullis, chairman of the Jackson county chapter, declared today:

"The Red Cross, through aid to the ill and wounded, to our service-men stationed in remote lands, to war-weary victims of aggression in other nations, has become a symbol of mercy all over the world. The organization is linked with all religious faiths through a common purpose: To relieve the suffering of humanity. It is fitting indeed that the churches set aside a week-end to observe Red Cross Sunday."

Planes Drop Hay To Helpless Elk
Yakima, Wash., Feb. 15—(U.P.)—Snowbound elk in a canyon near Bumping Lake fed well today on 17 bales of hay dropped from a C-47 army plane from the Walla Walla, Wash. army air base.

From five to seven feet of snow in the area near the lake trapped the small band of animals and prevented local ranchers, who usually care for them, from supplying their feed. The office of the state game commission reported to day further food probably would be dropped to the helpless elk if snow did not melt sufficiently to free them.

COMBAT NEUROSIS
San Francisco, Feb. 15—(U.P.)—Donald W. McGuire, 24, Kansas City, Mo., on trial for murder as a result of the fatal shooting of a shore patrolman last November, was a "combat neurosis case," who developed "hidden hostilities" during his war experiences, Defense Attorney Douglas Moore told a federal court jury today.

ALTHOUGH it experienced an exceptional growth throughout the war years, our company did not profit from the war. The tabulation . . . comparing the year 1945—the end of the route to Tokyo Bay—with 1939—the year in which ominous war clouds cast their impending gloom—vividly portrays, not only what our company's expansion has been throughout the years of its war effort, but also the impact of this expansion on its major operations.

"The phenomenal development of the Pacific Coast with its tremendous strides in commerce, industry, military and naval activities has placed, and will continue to place, exacting demands upon our company. With the nationwide interest in this far-flung section with its rapidly expanding markets and its outstanding growth potentialities, our company will experience in the immediate years ahead, as they are now visualized, an unprecedented expansion.

"Our immediate task ahead is to render service to all who want it and to restore and to take our service to new heights. As it announced December last, in the immediate five-year period our company will be required to make expenditures for new construction aggregating \$400,000,000, and, as a consequence, extraordinary amounts of new capital will be required. The execution and speed of this entire program are dependent upon the flow of available manpower, materials, money and the level of business conditions. The consummation of the program for 1946, now well under way, will require, it is estimated, an all-time high expenditure of upwards of \$90,000,000 for new construction. This compares with the \$35,800,000 expended in 1945. Inclusive of materials re-used, the gross plant additions for 1946 are estimated at well over \$100,000,000. This expenditure will be more than double the 1945 gross plant additions of \$48,791,000.

"To do all the things we have in mind will take men, materials and money. Our program will offer employment opportunities to many men and women not only in the manufacture, construction and installation of the added plant, but also in the maintenance and operation of a continuously improving and expanding service. Our vast undertaking will require for its accomplishment earnings that are sufficient to attract the huge sums of new capital needed. Expressing as it does a fundamental significance to every city, town, village and hamlet throughout the Pacific Coast, the consummation of our unprecedented program will result in increasing the plant investment of our company by almost 50 percent, bringing its total plant investment to an amount aggregating upwards of a billion dollars.

"The era of tremendous expansion that our company has now entered places responsibilities of the first magnitude upon our management. We go forward with a firm faith that a telephone service rendered well will continue to be well received. In our company's following out its established

policy—to furnish the best possible service; to render the service as economically as possible; to charge for the service only an amount to keep our company financially vigorous—it is of vital importance that its earnings be such that they will continue to attract the necessary amounts of new capital needed to accomplish these objectives. Earnings that are adequate are in the public interest, because earnings that are less than adequate necessarily jeopardize the efficiency and the scope of the service. Thus, our company and the public it serves have a common interest. In full recognition of that interest, the charges for the service rendered should reflect a fair treatment policy expressed in rates which, at all times, will be such that sound economic considerations will prevail in the interest of all parties—the patrons, the employees and the investors.

"A successful nation is a prosperous nation. In order to increase and to sustain the production which is vital to that prosperity, business and industry must, of necessity, prosper as must their personnel who, through the dedication of individual effort, contribute to the forward march of America. This fundamental concept, the recognition of the dignity and worth of the individual and the value of free enterprise, with equal opportunity for all—the American way of life—has produced the highest standard of living among all peoples. Progress has been the measure of the welfare of our great Nation—it will be the earnest endeavor of our company, as it has been in the past, to render a communication service, which through its scope, efficiency and dependability, will continue to make its full contribution to that progress."

FROM PEACE TO WAR AND FROM WAR TO PEACE

our company's expansion has been throughout the years of its war effort, but also the impact of this expansion on its major operations.

"The phenomenal development of the Pacific Coast with its tremendous strides in commerce, industry, military and naval activities has placed, and will continue to place, exacting demands upon our company. With the nationwide interest in this far-flung section with its rapidly expanding markets and its outstanding growth
