

Your Health and It's Care

By DR. WILLIAM BRADY, M.D.
Readers should address inquiries to Dr. William Brady,
285 El Camino Beverly Hills Calif.

KEEP YOUR CHIN IN

Dr. Brady

For a year (writes a correspondent) I have been taking deep breathing exercises, and in that time my chest measurement (not expansion) has increased one inch. But recently you told of a young man with a very large chest expansion who had incidentally pulmonary tuberculosis. Will my exercises tend to bring on tuberculosis? (D. G.)

The young man mentioned was the only candidate among a group of more than twenty youths examined who had a large chest expansion—no less than five inches. He had followed somebody's mail-order "course" for development of "superb manhood" or something of the sort, and he was obviously proud of his extraordinary chest expansion. Notwithstanding that, he had tuberculosis in one lung, the early stage. The other young men,

Yessir-e-e, "Fergy" is our type

They call him "Fergy." The small fry... the teen-agers... the grown-ups. Whoever thinks of J. C. Ferguson by any other than friendship's nickname is a stranger to Quincy (Pop. 1,228) in California.

It means something good when his home towners—including the vastly critical youngsters—think of a man by an affectionate, unofficial tag. In "Fergy's" case that's proved every time you see a Quincy boy or girl.

Quincy kids are happy kids... healthy kids... good kids. For much of that you can thank a community effort in which "Fergy" was a spark-plug. Quincy wanted to do something special for the Boy Scouts. When "Fergy" became president of the citizens' organization, the purpose somehow grew to include all Quincy's youngsters.

Now the young people of Quincy enjoy a youth center program that helps them have fun—and let off steam. They lay their own plans. They carry out their own projects. They run things. But in the background is a group that looks after adult matters such as paying incidental bills. "Fergy" is chairman.

"Fergy" happens to be a wholesale distributor of our products. He's the kind of man we all like to do business with.

Moreover, we're happy to say that many of our distributors are men like "Fergy." They're men who have the welfare of their communities at heart. They're men who—when something's to be done for small fry... or teen-agers... or grown-ups—get in there and pitch.

YUKON VISITORS SAY ALCAN ROAD OPEN IN WINTER

Contrary to popular belief, the Alcan highway is open at this time of year according to two midwestern men who have been visiting here en route to their homes from Whitehorse, Yukon territory.

Starting from Whitehorse on February 3, David Thompson, Detroit, and Floyd Schepfer, El Madison, Wis., traveled over the 918-mile route to Dawson Creek, B. C., in three days. They found the roads between Dawson Creek and some of the hard surface roads of Oregon in worse shape than the U. S. army maintained Alcan highway. Repair camps are established at points 100 miles apart along the route and motor patrols keep the way clear, according to the men who made the jaunt in a 1939 Plymouth pick-up truck.

Hated To Leave
Thompson and Schepfer, who were employed in the highway's construction, said that they liked the country around Whitehorse and hated to leave, indicating they would have remained in the region had it been United States territory. Much of the country is yet wild, they stated, remarking that 50 miles south of Whitehorse they had killed a wolf weighing 130 pounds, and were carrying its frozen carcass with them. Only 74 men from the United States are left of the thousands who flocked to Whitehorse during highway construction days, the two men assert.

Chains Unneeded
The men were required to have complete safety equipment and winter clothing but said that they never once utilized chains on their tires.

Taking the central route across the country, via Klamath Falls and eastern Oregon, the men resumed the trip to their homes Sunday morning. Mrs. Archie Ferns of Fern Valley and Mrs. Carl Henry of Ashland are cousins of Thompson.

SOVIET USES ITS VETO TO THWART YANK FORMULA

London, Feb. 18.—(U.P.)—The Soviet Union used its security council veto power for the first time Saturday by killing a United States formula for settling Syrian-Lebanese complaints over the presence of British and French troops.

The council had no choice but to declare the case closed without action. Although this was the first time the veto power of the council's Big Five, has been used, it was the second time Soviet delegate Andrei I. Vishinsky, chief defender of the Syrian-Lebanese claims, had invoked it. In the Iranian case before the council, he had threatened to use it if a resolution was put to a vote. It wasn't.

Syria and Lebanon charged that British and French troops in their countries infringed upon sovereignty. Britain said it wanted to withdraw its troops as soon as possible but France declined to make a categorical promise. The Soviet Union charged France wanted cultural, economic and strategic guarantees in return for withdrawing troops.

Sen. Morse Favors Compulsory Court

Salem, Ore., Feb. 18.—(U.P.)—Sen. Wayne Morris of Oregon, speaking before the Federation of Patriotic Societies here Friday night, declared that compulsory world court is the next step toward securing world peace.

Morse said that permanent peace will require some very thorough re-thinking among the peoples of the world.

"The odds are all in favor of the proposition that unless we make this peace the final peace there will be no other peace."

MOTHER DOING WELL

Hollywood, Feb. 18.—(U.P.)—Ralph Edwards, master of ceremonies of the Truth or Consequences radio show, Saturday became the father of an eight pound, five ounce baby girl.

The case of the Baffled Bride

OLD ENGLISH NO-RUBBING WAX takes the rub out of housework

Keeping floors bright kept busy in a busy life is no longer a problem. Old English No-Rubbing Wax. A real wax, never, this self-polishing wax dries in 15 minutes to a dazzling bright, crystal-hard finish—without any rubbing! Keeps floors from becoming dull, keeps the shine fresh as a dew-drop. Yet a wax-saving price costs only 39¢.

Save time. Save money. With Old English HOUSEHOLD HELPERS

Geology of Southern Oregon

By Russell A. Mitchell

Several years ago Francis Wells of the U. S. Geological Survey made a map of the Grants Pass Quadrangle in co-operation with the Oregon Bureau of Mineral Industries. Principal rocks of the area were classified along with a discussion of their origin and age. Principal minerals were also discussed including gold and the probable future of gold mining in the area.

The Grants Pass Quadrangle includes land from the California line north to a few miles north of Grants Pass, and east from a line about six miles west of Grants Pass to a line about the same distance west of Medford.

The map is too technical for the average prospector. Fortunately only a general knowledge of geology is of benefit to the miner or prospector. Most gold mines have been found by men who know nothing of geology and of course the name of a rock has no bearing on its mineral content.

Age No Criterion
However, practically any prospector is happy when he can name a rock and discuss its age and origin. One can hear almost any time prospectors state with definite assurance that the Siskiyou are composed of the oldest known rocks and advance this argument as proof that southern Oregon must be a great gold mining region. Truth is that the age of the rock has no bearing on its gold content. If gold is there, it is there and the man who finds it in commercial quantity is lucky. That rule holds for other minerals in a much less degree as the classifications of mineral veins reveals.

Five Ages Represented
According to Mr. Wells there are five ages of rock represented in the area—Paleozoic, Jurassic, Cretaceous, Eocene and Quaternary. Paleozoic rocks include the old schists found on Elliott Creek; argillites extending in long bodies from southwest to northeast and including limestone, quartzite and chert. Whiskey Peak is a beautiful example of banded and folded chert. The meta-volcanics of this age just about cover the map.

The Jurassic age includes sediments of dark slate found along Rogue river beginning about six miles west of Grants Pass. The volcanic flows of this area are andesite flows which compose Holcomb peak; serpentine which makes up Iron Mountain, Col. lin's mountain, etc.; gabbro is found on the north side of the Applegate about one mile below Newhope. Gabbro is a deep, coarse grained rock which is called basalt where it flowed to the surface.

Basalt is found all over eastern Oregon and western Idaho. Serpentine can be recognized by its alteration to talc and soapstone near contacts. Quartz-diorite is supposed to be the plutonic rock that underlies all other rocks of the area. It composes such peaks as Grayback, Palmer and Boaz mountain. The ridge running north of Jacksonville is granodiorite. It would be called granite if its potash feldspar exceeded the soda-lime.

Where Coal Formed
The Cretaceous Age is represented by the dark green, gritty sandstone found along Jackson

creek. Coal was formed in this period.

The Eocene Age is represented by sandstone in Sams Valley and the Quaternary is the loose alluvium lying at the foot of all hills now.

As stated above veins are classified according to mineral content. Hypothermal veins were deposited at great depth and high temperature, supposedly between 300 and 500 degrees centigrade. Principal ores are cassiterite (tin), wolframite (tungsten) and molybdenite. I do not know of tin having been found here although both tungsten and molybdenite are known. Commercial ores of these veins are usually gold, copper and lead.

Mesothermal veins were formed at medium depth and at a temperature between 200 and 300 degrees centigrade. Chief ores are gold, pyrite, chalcopyrite, arsenopyrite, galena, sphalerite, etc. Commercial values are usually gold, copper, lead and zinc.

I do not know of sphalerite having been found in this area but the other metals are fairly common. Sphalerite in other parts of the world is called black jack or zinc sulphide.

Gold Main Metal

Epithermal veins were deposited at shallow depths and low temperature. Typical ores are gold, marcasite (iron), cinnabar and stibnite. Vein material is quartz, opal, calcite or barite. Commercial values are gold, silver and mercury.

Gold is a principal metal of all three types of veins but it does not follow that all veins will be rich in gold. Fortunately most veins of southern Oregon do carry gold, however, I know of an antimony vein (stibnite) that shows only a trace of gold; also a copper vein (chalcopyrite) that assayed only a trace of gold. I once opened a tungsten vein, supposed to have been deposited at great depth, which was rich with cinnabar, supposed to be a shallow deposition. It assayed only a trace of gold.

One cannot arbitrarily lay down rules for nature to follow. Nature follows her own plans, but with a basic knowledge of science the prospector can follow nature's rule and see it revealed in rocks and mineral veins.

Last year Wyoming produced 396,660 short tons of stone valued at \$383,463 and 1,460,663 short tons of sand and gravel valued at \$720,381.

LEGAL NOTICES

Summons For Publication

IN THE CIRCUIT COURT OF THE STATE OF OREGON FOR JACKSON COUNTY. WILLIE GUY TIBBITS, also known as WILLIE G. TIBBITS, and VINETA GLADYS TIBBITS, husband and wife, Plaintiffs, vs. VON DER HELLEN and HELEN VON DER HELLEN, a co-partnership; BUTCHER, HELVIG & TRANSON, a co-partnership; WILLIAM VON DER HELLEN and HELEN VON DER HELLEN, husband and wife; JOHN BROWN and MARY BROWN, husband and wife; JACK BUTCHER and MARY BUTCHER, husband and wife; THOMAS HELVIG and JUNE HELVIG, husband and wife; RICHARD TRANSON and SARAH TRANSON, husband and wife; CHARLES WALKER, a single man; GRACE WALKER and JOHN DOE, her husband, if married; each and all of the unknown heirs of each and all of the

above named defendants; also, all other persons or parties unknown claiming any right, title, estate, lien or interest in the real estate described in the complaint herein, Defendants.

TO EACH AND ALL OF THE ABOVE DEFENDANTS: EXCEPT WILLIAM VON DER HELLEN and HELEN VON DER HELLEN, husband and wife, and CHARLES WALKER, a single man.

IN THE NAME OF THE STATE OF OREGON, you and each of you are hereby required to appear and answer the complaint filed against you in the above entitled suit on or before the last day or four weeks from the date of the first publication of this summons, and if you fail to so appear and answer said complaint, or want thereof, the plaintiffs will apply to the court for the relief demanded in their complaint, succinctly stated as follows:

That each and all of the defendants herein be required to fully set forth any and all right, title, estate, lien, claim or interest whatsoever that they, or any of them may have, or claim, in, to, or upon the real property described in the complaint herein, or any part or parcel thereof, which said real property is situated in Jackson County Oregon, and more particularly described as follows, to-wit:

Lots 8, 9, 10, 11, 12, 13 and 24, 25, 26, 27, 28 and 29, all in Block 7, of the CENTRAL ADDITION to Eagle Point, in Jackson County, Oregon.

That each and all of the claims that may be made on the part of any or all of said defendants herein, in or to said real property herein described, or any part thereof, be adjudged and declared to be null and void; that the plaintiffs herein be decreed to be the owners in fee simple of said real property free and clear of any right or claim whatsoever on the part of said defendants, or any of them.

That each and all of the defendants herein, and each and all persons claiming, or to claim by, through or under them, or any of them, be forever enjoined, restrained and barred from asserting, attempting to establish, or claiming any right, title, estate, lien or interest whatsoever in, to, or upon said real property, or any part or parcel thereof, and that plaintiffs' title to said premises be forever quieted and set at rest.

This summons is published by order of the Honorable H. K. Hanna, Judge of the Circuit Court of Jackson County, Oregon, made and entered on the 28th day of January, 1946.

The time prescribed in said order for publication of this summons is once each week for four consecutive weeks. The date of the first publication of this summons is January 28th, 1946.

O. H. BENTSON, Attorney for Plaintiff.

126 East Main Street, Medford, Oregon.

CALL FOR BIDS

\$5,000 Negotiable Interest Bearing Warrants

Sealed bids will be received on both interest rate and principal for the purchase of five one thousand dollar negotiable interest bearing school warrants, payable one each year, to be issued by North Phoenix School District No. 24, Jackson County. Bids will be received up to 3:00 p. m. on Monday, February 25, 1946. Bids will be opened at the schoolhouse at 8:00 p. m. Feb. 25, 1946. The Board reserves the right to reject all bids. Address all sealed bids to the clerk, Coral Schroeder, route 4, box 195, Medford, Oregon.

NOTICE OF FINAL MEETING

In the County Court of the State of Oregon for Jackson County. In the Matter of the Estate of AXEL E. AMUNDSEN, Deceased.

NOTICE IS HEREBY GIVEN, That the undersigned Executor has filed with the above entitled

Monday, Feb. 18, 1946 MEDFORD MAIL TRIBUNE—THREE

Court its duly verified First and Final Account and that said Court has set the hour of 10 o'clock A. M. on February 27th, 1946, as the time, and the court room of said Court in the court house in Medford, Oregon, as the place for the consideration of said account, the approval thereof, and the discharging of the said Executor and the final closing of said estate as fully probated upon.

All persons having any interest in said estate are hereby notified and required to appear at said time and place and show cause, if any they have, why such relief should not be granted.

Dated and first published at Medford, Oregon, on this 4th day of February, 1946.

THE FIRST NATIONAL BANK OF PORTLAND, Executor of the estate of Axel E. Amundsen, deceased.

F. J. NEWMAN, Attorney for Said Estate.

CITATION

In the County Court of the State of Oregon for the County of Jackson.

In the Matter of the Guardianship of the Estate of MARTHA MACDONALD, an incompetent person.

To Edward MacDonald, Robert MacDonald and William MacDonald:

You, and each of you, are hereby summoned, cited, ordered, and required to appear in this said court and cause in the County Courtroom at Medford, Jackson County, Oregon, at the hour of ten o'clock, A. M., on Wednesday, March 13th, 1946, said date being more than four weeks after the first publication of this said citation, and then and there show cause, if any there be, why George Holzgang, the duly appointed, qualified and acting guardian of the estate of the above named incompetent, should not be authorized, licensed, empowered and ordered to sell all of the right, title, estate, lien and interest that he as such guardian or said incompetent may have or claim to have in and to the following described premises lying and being situated in Jackson County, Oregon, to-wit:

All of Donation Land Claim No. 42 in Township 38 South, Range 3 West of the Willamette Meridian, in Jackson County, Oregon.

The South Half of the Northeast Quarter; the Northeast Quarter of the Southeast Quarter; and Government Lot No. 3, all in Section 23, Township 38 South, Range 3 West of the Willamette Meridian, in Jackson County, Oregon, at private sale for cash.

This citation is published once each week for four consecutive weeks under and by virtue of an order duly made, rendered and entered by the Hon. J. B. Coleman, County Judge, under date

of February 7th, 1946. The date of the first publication of this citation is February 11th, 1946.

WITNESS the hand and seal of the County Court of Jackson County, Oregon, this 7th day of February, 1946.

J. B. COLEMAN, County Judge.

Attest: G. R. CARTER, County Clerk By NYDAH NEIL, Deputy. (Seal)

What do you mean... There may be less soap unless I save my used fats?

Exactly that, Mrs. American Housewife. Even though food fats are ration-free now... industrial fats are still very scarce. That's why it is so important to keep turning in your used kitchen grease, to help make soap and other peacetime products. Not for months will the fat supply be back to normal. Meantime, you can help the situation by salvaging used fats!

HERE'S HOW WE DO IT!

Grown from our own special strain of seed, where soil and climate produce the finest quality.

They're harvested just when they're ready. Day or night! Flavor won't wait.

They're blended—for flavor balance. A quality selection of just the tastiest peas in the pod.

They're fast-packed—right after picking. For nothing's more important in canned-pea quality.

AFTER WHAT MR. BROWN SAID TODAY, GUESS WE'D BETTER KEEP SAVING EVEN FAT SCRAPS.

Here's how you can help put more soap back in the stores

EVERY DROP'S IMPORTANT... MEANS MORE SOAP FOR SHIRTS AND SHEETS! I'M TURNING IN A CAN TODAY... AND GET 44 A POUND, BESIDES.

Where there's fat there's soap
Keep Turning in Used Fats—To Help Make More Soap

What makes these peas taste "so extra good"?

LOOK FOR Del Monte Early Garden Peas—the quality peas with the flavor first blend
