**MANY NEVER
SUSPECT CAUSE
OF BACKACHES**
This Old Treatment Often
Brings Relief
Many sufferers realize nagging backache
usually, once they discover that the real cause
of their trouble may be third kidneys.
These are the "third" kidneys. They are
the accessory glands and waste out of the blood.
They help filter the blood and remove poisons.
When they become diseased, they permit
poisonous matter to remain in your blood. It
may cause nagging backache, rheumatic
pain, leg pain, loss of sleep and energy, feel-
ing up nights, swelling, puffiness under the
eyes, headaches and dizziness. Frequent or
acute passages with burning and burning
sometimes shows there is something wrong
with your kidneys or bladder.
Look! We want Ask your doctor for Dr. Dean's
Pills, a stimulant diuretic, used successfully
for millions for over 40 years. Dean's Pills
water relief and will help the 18 million of
kidney troubles. Rush out poisonous waste from
your blood. Get Dean's Pills.

Your Health and It's Care
By DR. WILLIAM BRADY, M.D.
Readers should address inquiries to Dr. William Brady,
285 El Camino Beverly Hills Calif.

TOO MANY HANDI CAPPED PEOPLE
Now and again I have uttered
what may seem absurd to the
uninformed, namely, that every
sound tooth is worth at least
a thousand dollars, and one should
deduct from one to two years of
one's life expectancy for every tooth
lost and not immediately
replaced by a functional
efficient denture.
It does not invalidate this
dictum in the least that occasion-
ally some one continues breath-
ing for years beyond the aver-
age span of life without a tooth
in his or her head. I believe every
sound tooth is worth at least—
well, I'd have to be in desperate
need before I'd sell one of my
sound teeth for a thousand dol-
lars. I believe most people who
attain hearty old age and enjoy
it still have most of their own
teeth or darn good dentures to
show.

According to insurance statis-
tics, among Britons aged 16 to
19 years who seek dental treat-
ment 12% need a complete set of
artificial teeth. That is dreadful
to contemplate. Old England is
in bad shape all around. Roast
beef, treacle and tea can hardly
maintain good nutrition in Eng-
land, nor can white flour, sugar
and steak build and maintain
sound teeth in America. A news
picture in a British publication
shows a cabinet member and a
ship's stoker—the two men are
laughing and both of them show
shockingly neglected teeth—ugly
spaces from which teeth are
missing. Apparently the British
people have lower per capita
consumption of milk and milk
products, greens and fruits, and
get less sunshine or diffuse day-
light on naked skin than Ameri-
cans do.

Another reason for the more
rapid physical degeneration
evidenced by this state of the teeth
of Britons is the indifferent
dentistry they have in England,
Scotland and Wales, compared
with the American standard,
which is beyond question the
finest dentistry in the world.
Here in America a white collar
worker, a mechanic, a teacher or
a member of his or her fam-
ily visits the dentist again and
again for treatments or for a fill-
ing or an inlay or other measure
which will save the tooth or at
least give the patient a chance.
In England the ordinary patient
with a decayed tooth either wor-
ries along without treatment or
has the tooth extracted. Not in-
variably, but this is generally so.
We certainly place a greater
value on our teeth than the Brit-
ish do, but we are inspired more
by considerations of personal ap-
pearance than by considerations of
health and longevity.
