

JACKSON COUNTY FARM NOTES

Compiled by County Office O. S. C. Extension Service

Garden Bulletin
Free On Request

A new garden bulletin has been prepared especially for Jackson county home gardeners.

When and what to plant as well as pest control, fertilizers and other garden topics are discussed. The information is not technical, but was prepared to assist small gardeners who wish to grow a few vegetables for home use.

This bulletin will be sent free to anyone requesting it or it may be obtained by calling at the extension service office in the courthouse.

Gardens Still Needed To Bolster Supply

With the current food situation in other countries very critical, American home gardeners have been asked to again produce all the garden stuff possible. This will release the commercial to produce more for export.

The present objective is to have a garden on every farm and for every city home where suitable land is available. The garden, where possible, should be large enough to produce sufficient vegetables for fresh use and for canning to meet the family requirements for good nutrition and health.

C. B. Cordy
Assistant County Agent

4-H Members Asked To Grow Gardens

The 4-H club members are asked to grow a victory garden wherever it is possible this year, in order to help feed the people of the world. This need not be an individual garden. A part of the home garden can be planted and cared for by the club member. This might be an extension of rows of the same vegetables to facilitate easy cultivation.

Vegetables grown can be shown at the county and state fairs for cash prizes, also the club members records may be entered in the National Victory Garden contest in which eight sectional winners in the United States receive a free trip to the National 4-H Club Congress at Chicago and a \$100 war bond. 4-H club victory gardeners are also eligible for membership in the National Junior Vegetable Growers' association. This association makes three \$100 awards in the western section; 16 \$200 awards over the United States and a grand prize of a \$500 scholarship to the national champion.

Appearing before a Senate military affairs subcommittee, Russell A. Nixon, former official of the American military government in Germany, accuses elements within the American, British and French governments of deliberately fostering Big Four disunity in an apparent effort to create a three-power western bloc against Russia. Nixon explained this trend evident in fact three military governments had squeezed Russia out of allied hunt for German assets in neutral countries.

KLAMATH CENTER TOO EXPENSIVE

Klamath Falls, Feb. 28—A proposal to make a community center out of the USO building here was virtually abandoned Wednesday, after unfavorable action was taken by the city recreation committee.

The committee cold-shouldered the proposition after it was learned the costs for rent, light, water, heat and janitor service would exceed \$1000 a month. Committeemen decided this was too much to ask taxpayers to put up for temporary quarters.

Mayor Ed Ostendorf told the committee that several small tax levies for other purposes will undoubtedly be on the ballot, further lessening the possibility that a levy for the community center would pass. The USO will be closed out on March 14.

ATOMIC GARLIC
New York, Feb. 28—(U.P.)—Atomic garlic was on display today at the 20th annual Chemical Industries exposition. One ounce of the distilled garlic is equal to 3,200 ounces of ordinary garlic. The maker suggested that it be diluted before using.
