

Lipscomb Top Over Foe At Armory Here

Falling for a trick almost as old as the wrestling profession cost Buck Davidson his grudge match with Jack Lipscomb at the armory last night. The struggle, which was as rough as a rasp, failed to live up to the majority of the customers' expectations for wildness.

Although Davidson tried most of the time to make his bigger foe wrestle, Lipscomb would have none of it and preferred to use his first and other tactics unbecoming a gentleman wrestler.

The first fall went to Lipscomb when Davidson yelled "uncle" from a half crab hold. Davidson evened it via a toe hold but that was the last spurt for the favorite.

Wrestlers Entangled

The gladiators became entangled in a cradle hold and neither would let loose. Referee Earl Yoakley, who had been mauled considerably several times during the fracas, refused to interfere and left them to work it out as best they could, and that's what cost Davidson the match.

Lipscomb offered a handshake to break the hold and Davidson accepted, releasing his grip. Lipscomb, however, failed to let go and flipped Davidson into another half crab for the final fall. Georges Dusette and Lee Grabel each took a fall in a sparkling struggle. It was as clean as Monday morning's wash and faster than lightning. It was by far the best match on the card.

Leo Wallick introduced a vicious pilerdriver which took the measure of Billy Fox in the opener.

Deer Reported Dying In Burn

Newberg, Ore., Jan. 27—(U.P.)—Government Trapper Douglas Jones and U. S. Forester Mervin Whitmore of Hebo today were concerned about dying and weakened deer in the Tillamook burn area of Oregon.

Both outdoorsmen said two severe winters in a row had weakened the animals and advised that the burn be closed to hunters for an indefinite period in order to give the deer a chance to increase in number and improve their health.

Both men stated that hundreds of dying and dead deer were seen throughout the area when they made a survey up the Trask river to find out if coyotes were killing weakened deer. They said they found more weakened deer in the Wilson river area than they did around the Trask river.
