Communist Threat Said By Minister To Be Moral And Spiritual Problem

Repelling the threat of eastern world to destroy western civilization is not a political, social or economic problem but a moral and spiritual problem, the Rev. George Bolster, rector of St. Mark's Episcopal church, pointed out to Kiwanians at the luncheon meeting at Rogue Valley Country club yesterday.

He said that Christian democracy of the west is doomed unless the moral and spiritual situation is developed to control the situation.

West Point, Navy To Exchange Students

West Point, N. Y., Feb. 2.—(U.P.)—West Point cadets and midshipmen at the United States naval academy begin a series of exchange visits tomorrow in the "spirit of unification," the United States military academy said today.

The naval academy will send 120 midshipmen to West Point and 76 cadets will go to Annapolis in the first of six week-end exchanges to show each service how the other trains for war.

The swap of prospective officers of the two academies is designed to "encourage a closer understanding" among the services, West Point officials said.

Visiting midshipmen will attend classes with the cadets and orientations on army weapons and training Friday and Saturday. They will be introduced to West Point social life at a cadet hop Saturday night. Cadets visiting Annapolis will follow a similar schedule.
