

Christian Science Lecturer Tells Of Understanding Needs

A lecture on Christian Science, entitled "Christian Science: The Revelation of the Healing Christ," was given last evening in the high school auditorium by Dr. Walton Hubbard, C.S.B. of Los Angeles. Dr. Hubbard, who is a member of the Board of Lectureship of The Mother Church, The First Church of Christ, Scientist, Boston, Mass., spoke in part as follows:

There is nothing of so great importance to us as to know God and our relationship to Him, for this understanding frees us from the bondage of sickness and sin and brings us into what Paul calls "the glorious liberty of the children of God" (Rom. 8:21). It is my purpose to discuss with you as revealed in Christian Science, for it is the Christ-consciousness in us that brings about this freedom.

Mary Baker Eddy, the Discoverer and Founder of Christian Science, has defined the Christ, on page 583 of her textbook, "Science and Health with Key to the Scriptures," as "the divine manifestation of God, which comes to the flesh to destroy in carnate error." Through the prayerful study of Christian Science, with a sincere desire for spiritual growth, the Christ comes to us, develops in us, and constitutes our salvation.

The Discoverer and Founder I should like to tell something about the Discoverer of Christian Science, for by so doing we may be better able to appreciate what

she has written. Every advanced idea, every unfolding of Truth, has come to the world through the avenue of some human intelligence. Whoever has discovered or presented truth has done so only because his fundamental qualities, molded by environment and education, have made such a one a suitable channel for the presentation of a particular idea. It was not Shakespeare, the poet, but Newton, the mathematician, who discovered the law of gravitation; not Kipling, but Edison, to whom the secrets of electric lighting were revealed. It was not Napoleon, but Lincoln, who wrote, delivered, and lived the Gettysburg Address. And so it was not some materialist, but Mary Baker Eddy, who discovered Christian Science, and the spiritual character of its teachings as well as the results following their application are of necessity a correct index of the type of thought through which they came.

The gratitude which Christian Scientists express toward Mrs. Eddy is often a source of surprise to those who have not experienced the blessings which Christian Science confers on those who study and apply it. The student of Christian Science finds that in studying what Mrs. Eddy has written, there is continued spiritual unfolding, so that the longer he studies the greater becomes his appreciation of her. As Truth is progressively revealed in his consciousness, it becomes habitual for him to look for corroboration or clarification of the unfolding that comes to him, by turning to what she has said, either in her textbook or other writings, and he never fails to find it.

For myself, I can say that no amount of gratitude that I may express toward her can ever be sufficient payment for the spiritual blessings which she has conferred upon me.

The fact that thousands have been healed through the anointing that has come to them, in which they have realized in some degree that they are sons of God,

is evidence that her contention is correct, and that the Church of Christ, Scientist, does indeed do what the Church Manual states it was intended to do "re-instate primitive Christianity and its lost element of healing" (p. 17).

Now the healing is brought about by the acceptance of Spirit and all that is spiritual and eternal and real and the rejection of matter and all that pertains to it as unreal. Mrs. Eddy declares on page 369 of her textbook: "In proportion as matter loses to human sense all entity as man, in that proportion does man become its master. He enters into a divine sense of the facts, and comprehends the theology of Jesus as demonstrated in healing the sick, raising the dead, and walking over the waves. All these deeds manifested Jesus' control over the belief that matter is substance, that it can be the arbiter of life or the constructor of any form of existence."

Every instance of physical healing, either functional or organic, brought about by Christian Science treatment is evidence not only that Christian Science heals, but that it is not matter that is healed, but an erroneous belief calling itself matter. In many cases, a sufferer, finding no relief through the use of material means and having heard of Christian Science, turns to it, perhaps skeptically, for healing. Oftentimes the healing is immediate, and with little or no understanding on the part of the patient the healing comes about. Such healings bear out Mrs. Eddy's statement on page 449 of Science and Health, where she says, "A grain of Christian Science does wonders for mortals, so omnipotent is Truth, but more of Christian Science must be gained in order to continue in well doing."

If we are to get the blessings which Christian Science offers, we must get more of it, and not be satisfied with just a smattering of it. We must undertake to become increasingly conscious that we are "sons of God."

Christian Scientists are a happy and joyous people because of the daily and hourly evidence of the presence and power of the healing Christ. This anointing is the light that is in us, which destroys the darkness of sickness and sin. It is the consciousness of sonship with God, which enables us to claim and to receive our divine inheritance of Love's goodness. We can increase our consciousness of the Christ only by the daily study of Christian Science, and by applying the unfolding that comes to us to the problems of the day. In this way we shall grow in grace, "till, in the words of St. Paul (Eph. 4:13), "we all come in the unity of the faith, and of the knowledge of the Son of God, unto a perfect man, unto the measure of the stature of the fullness of Christ."

About 53 per cent of Japan's adult workers are currently engaged in fishing, forestry, farming or mining.

Rogue River

Rogue River, Feb. 21.—Mrs. Hattie Harris of Lewiston, Ida., who has spent most of the past three months visiting at the home of her sister, Mrs. James Whipple and husband, left Tuesday for her home. While West she visited her son, Marion Harris and wife in San Francisco and also visited another sister here, Mrs. James Wiley and family.

Mr. and Mrs. Don Brady of Coos Bay spent last week-end at Rogue River visiting Mrs. Brady's mother, Mrs. Juanita Whittick and other relatives. They also visited at the Whipple home. The Bradys attended the wedding of Miss Mary Brugman and W. Evans Powell at Medford. Mr. Powell and Mr. Brady were in World War II together.

Mrs. Juanita Whittick recently went to Coos Bay to see her granddaughter, born January 19, to her son and wife, Mr. and Mrs. Neil Thompson. The little lady was named Lynn Maureen.

Mrs. Annie Oden of Grants Pass was a visitor Thursday at the home of Mr. and Mrs. Tom Wilson. Mrs. Wilson fell recently and broke her hip. In 1945 Mrs. Wilson fell and broke the same hip. Mrs. Oden is Mrs. Wilson's daughter.

Rogue River Hobby club met February 14 at the home of Mrs. Florence Tison. Dainty refreshments were served by the hostess, after which exchange of hobby gifts was enjoyed.

E.A.T. club held their February meeting at the home of Mrs. Lora Carter. A group of men of Live Oak Grange met at the hall every Monday, Wednesday and Friday nights to work on the big hall and are doing a good lot of work and the hall is showing more signs of being completed after each night of work. Grange is anxious to get the hall done as the chapter is growing so fast that meeting in the dining room is almost impossible, also members want to give plays and have a larger place to dance in. Ladies of the Grange serve refreshments to the men after work hours.

John Dixon who is employed in Portland, spent the week-end visiting his family here.

Dick Skevington, who has been visiting his grandparents, Mr. and Mrs. Elton Langworthy, will leave Monday by plane to return to Anchorage, Alaska, where he has employment.

Mr. and Mrs. John D. McCormick of Central Point visited Tuesday at the home of Mr. and Mrs. James Whipple here.

Mrs. Mae Shulls is visiting a few days in Jacksonville at the home of her daughter, Mrs. R. C. Cummings. Her grandson, Cloyd Porter, arrived by plane Tuesday from his home in Arizona and is visiting his mother and family at Jacksonville. Cloyd is a pilot and flew the plane, making the trip alone.

Table Rock

Table Rock, Feb. 21.—Mr. and Mrs. Jimmy Allen and son, Albert, left Sunday for southern California to spend a couple of weeks vacationing.

Mr. and Mrs. Robert Tremble of Central Point were Thursday evening guests of Mrs. Tremble's folks at the Stallings home.

The recent meteor explosion was witnessed by several local people who claim their houses were jarred much as by the explosion of dynamite.

Charles Hutchinson who was returning from his work at the Central Point mill, saw the flash as he was crossing the desert south of Bybee bridge and thought a transformer had exploded at the Camp White hospital.

Ray Ryan, local farmer, recently purchased a caterpillar tractor which will be used on his farm and for custom work. Lester Hamilton, son of E. C. Hamilton, and well known here, was seriously injured last Friday when a power saw in an Ashland mill where he works, ripped into his leg, cutting a gash that took 40 stitches to close. He will be hospitalized in Ashland for several days.

Mr. and Mrs. M. H. Goodlin left Monday for Fresno, Cal., on a short business trip.

At the Friday night meeting of Table Rock Community club, County Agent Ben Tucker thoroughly explained the workings of the proposed county conservation district to be voted on in March. He also explained who would be eligible to vote and where the polling places would be.

Men of the club were responsible for the program which leaned heavily toward the musical side and brought forth a variety of musical instruments.

Mrs. Mildred Vanderpool, Mrs. Everett Brown and Mrs. Francis Russell will be in charge of arranging the program for the next meeting. Refreshment committee will consist of Mrs. Ray Doran, Mrs. E. E. Robinson and Mrs. Ray Wyatt.

Mr. and Mrs. Eugene Narri-more and children of Klamath Falls spent the first of the week

NO MORE HARSH LAXATIVES SAY HAPPY COUPLE

"When I heard of ALL-BRAN I begged my wife to try it. She did it brought her amazing relief from the misery of constipation. We can't thank you enough!" Otto L. Kleppe, 1808 10th Ave., S., Minneapolis, Minn. Just one of hundreds of unsolicited letters from ALL-BRAN users. If you suffer from constipation due to lack of dietary bulk, do this: eat an ounce of tasty Kellogg's ALL-BRAN daily, drink plenty of water! If not completely satisfied after 10 days, return empty carton to Kellogg's, Battle Creek, Mich. Get DOUBLE YOUR MONEY BACK!

Oregon Milk Products Price Drops In 1949

Milk sold by Oregon dairymen in manufacturing plants during 1949 ended the year lower in value than at the beginning of that 12-month period, according to the weekly dairy markets review prepared by the Oregon State college extension service. Milk sold to cheese plants paid an average price per pound of 80 cents per pound of butterfat in January of 1949. The price had dropped four cents by the end of the year.

Condensery prices in Oregon were the highest paid for any manufacturing milk at the start of 1949, when the price was 93 cents per pound of butterfat. The December average price was 79 cents to Oregon producers. Milk sold for butter making decreased 15 cents a pound butterfat during the calendar year. Dairy cow prices in Oregon, after holding steady during the last four months of 1949, dropped \$5 a head at mid-January of this year. Compared to a year ago on January 15, dairy cow prices averaged \$35 a head less to Oregon producers. The average United States price for dairy cows dropped only \$12 a head during the same period.

Mormon Missionaries Leave Czechoslovakia

Prague, Feb. 21.—Eleven Mormon missionaries will leave Czechoslovakia tonight. Wallace Toronto, head of the mission, announced today.

The departures will cut the Mormon mission here to six, including two missionaries jailed last month by Czech police.

Twenty-six women's colleges in Japan are included among the many colleges which have advanced to regular university status, making coeducation possible in Japan at all educational levels.

here with relatives at the Willard Howsley home.

Mr. and Mrs. Perry Cooper of Dunsmuir, Cal., were week-end visitors here at the E. C. Hamilton home.

Many local housewives listen three times a week, Monday, Wednesday and Friday, at 4:45 p. m. to chapters being read over KJYC from the book, "Meeco," written by A. C. Allen, local writer.

The Vern Neathamer family of Yreka, Cal., spent last Sunday here with Neathamer's sister at the Ed Pierce home.

E. E. Robinson has leased part of the farm land on the Ray Baker farm and is busy preparing it for seeding.

The crew at the Table Top ranch has just finished unloading two carloads of commercial fertilizer.

Airplane Passengers Escape Mishap Hurts

Juneau, Alaska, Feb. 21.—UPI. None of the crew or 35 passengers was injured last night when a Pan American World Airways plane overshot the icy runway here, CAA officials reported.

Unable to get traction for the regulation ground loop, the quick-thinking pilot managed to skid the four-engine plane to a halt. The craft earlier had been delayed at Fairbanks because of a snow storm.

Both Pan American officials and civil aeronautics administration authorities were scheduled to make routine investigations today.

Currently there are 12 women members of Japan's House of Representatives and 11 women members of the House of Councillors.

Typhoid in Occupied Japan has been reduced to one-tenth of the rate that prevailed in 1945 when nationwide immunization began.

COLUMBIA BREWERIES, INC. • TACOMA, WASHINGTON
Distributed by Southern Oregon Distributors, Inc.

America has come a long way since that dark Christmas night in 1776 when Washington led his brave though weary men across the storm-swept Delaware and on to victory at Trenton.

During those Revolutionary days, men needed courage and vision to believe that the dream of a free America would some day be realized.

Freedom has come to America—individual freedom and economic freedom together with real security. New power, new machines plus constantly increased skill have meant abundance until today our way of life provides the highest standard of living ever enjoyed by any people.

Our American system is more productive, more promising, more challenging than any economic system the world has ever known. With even better teamwork, America's future...and yours...is unlimited.

MEDFORD BRANCH
OF THE
UNITED STATES NATIONAL BANK

AN OREGON BANK SERVING OREGON

IF YOU ARE SKILLFUL YOU MAY

WIN \$300.00
PLUS AN EXTRA \$50.00
If You Are Prompt and WIN FIRST PRIZE!

Start Now! And SOLVE This PUZZLE!

HERE ARE THE SIMPLE RULES TO WIN

1. The drawing of the newly constructed Hopkins Hall shown above is made up entirely of numbers. So get busy right away, add all of the numbers shown in the drawing of Hopkins Hall and send your answer right away. Each number is complete in itself. Numbers range from 2 to 9. There are no ones or zeros in the drawing. The tops of the 6's are curved and open. The bottoms of the 9's are also curved and open. Thus you can easily tell exactly what each number is.
2. This puzzle requires patience and skill, and remember each number stands alone and must be added separately. For example, 2, 3, 5 and 9 are to be counted 2 plus 3 plus 5 plus 9, total 19, and is not two thousand three hundred and fifty-nine. In other words simply add each number as if one stood above the other in a single column. That's all there is to it, but like a great many other things it is not as easy as it looks.
3. Skill and accuracy are necessary. If you are a fast solver of skill puzzles you may win \$200.00 in cash plus an extra \$50.00 if you are prompt. The thing to do right now is to get your pencil and paper and start immediately. Then rush your answer to us.
4. Tickets are anticipated and the winners will be determined by the best answer to a tie-breaker puzzle or puzzles. In the tie-breaker puzzle or puzzles it will be necessary to add a certain number of figures following a crossword like path to determine the largest total. In the first tie-breaker puzzle, the path will contain sixty numbers. In event additional tie-breakers are necessary, the path may contain more numbers. In case there are still ties after the four tie-breaker puzzles for the first prize or any of the other prizes, duplicate prizes will be paid.
5. At no time in this contest of skill will there be any prizes or extra prizes. This contest is confined only to persons living in the Continental United States and Canada.
6. Answers in order to be eligible to win must be postmarked on or before April 15, 1950. If you are declared the first prize winner, in order to win the \$300.00 for promptness your answer must be mailed within five days from the time you read this announcement. So hurry, send your answer today.

\$750.00 was won in our December 1st, 1949, contest by Mrs. Otto Butske, Berkeley, California.

Here is a brand new fascinating contest of skill which gives you the opportunity to win \$300.00 in cash plus an extra \$50.00 for promptness. \$300.00 to the first prize winner and there is nothing for you to buy and nothing to sell. There is no obligation whatsoever on your part. There are no tricks or illusions. You merely add all of the numbers as shown within the drawing of the newly constructed Hopkins Hall as shown above. There are no ones or zeros in the drawing shown above. Numbers range from 2 to 9, so add all of the numbers. Then rush your answer to once.

COULD YOU USE \$300.00 RIGHT NOW?
(PLUS \$50.00 EXTRA FOR PROMPTNESS)

SEND NO MONEY BUT RUSH ANSWER NOW TO QUALIFY FOR PROMPTNESS PRIZE

Do not send any money whatsoever with your answer to this puzzle. There is no obligation on your part. But remember, your answer must be postmarked on or before midnight April 15, 1950, which is the closing date. But it is important to hurry, send your answer immediately—right away. Remember you are to send no money in the Book of T. Washington Birthplace Memorial contest. No money is required now or later in the opportunity, if you so desire, to enter into a big contest where you may win up to \$4,000.00 in cash. Full details will be similar to this announcement received but will be more difficult, and in that contest a small donation of not less than \$2.00 will be required from all who enter. It is not necessary, however, that you enter the larger contest in order to win a \$300.00 prize in this contest. The thing for you to do right now is to rush your answer to the puzzle. Send no money, but hurry. Send your answer in a sealed envelope within five days from the time you read this announcement. The first prize is \$300.00 plus an extra \$50.00 cash for promptness. Mail your answer right away to—

A SERVICE MEMORIAL TO A GREAT AMERICAN

The Book of T. Washington Birthplace Memorial was established in 1946 as a non-profit organization under the laws of the Commonwealth of Virginia to make possible a Service Memorial to help perpetuate the ideals and teachings of Booker T. Washington, S. J. Phillips is President. It has its headquarters at Booker T. Washington Birthplace, Virginia. It is a post office, established February 12, 1948. This campaign is being conducted to bring to the attention of the American public a program that will help future generations. An Industrial Training Center, which will help thousands of underprivileged Negro youth, is now being established on the historic plantation where America's greatest Negro was born. This national program will train Negroes to meet the needs of industry and Service Institutions for today and tomorrow so that they will be able to accept more fully their responsibilities in the economic life of their communities.

TO EVERYONE WHO SUBMITS AN ANSWER

This contest costs you nothing except some of your time and a few cents postage, and besides we will offer you the opportunity to enter a large cash prize contest with a first grand prize of \$3,000.00 plus \$1,000.00 for promptness, or a total of \$4,000.00 all in cash. So hurry, get your answer in this large contest where the first prize winner has the opportunity of getting \$4,000.00 all in cash.

S. J. Phillips, Dept. 830 Booker Washington Birthplace, Va.
