Sympathizers Give \$6,000 For Legal Aid To Physician
Manchester, N. H., Mar. 4—(U.P.)—Sympathizers throughout the country, including several doctors, have contributed more than \$6,000 in one week to help Dr. Hermann N. Sander stand the expense of his "mercy slaying" trial, it was disclosed today.

The "Dr. Hermann N. Sander fund," managed by a 16-man committee of the doctor's friends, announced that letters were arriving at the rate of 200 a day and that many of the contributions were from doctors and nurses.

George Woodbury, fund chairman, author and former Harvard anthropologist, said one doctor simply wrote, "I understand" in a letter accompanying his contribution and that another doctor wrote "I served 36 years on a hospital staff" and enclosed \$150.

Woodbury said the contributions, ranging from 25 cents to \$500, were mostly from middle-aged and elderly people. He estimated Dr. Sander, 41, a general practitioner whose practice has been stopped until the end of the trial by agreement with the state, would need from \$20,000 to \$50,000.

The all-male jury, which has been locked up in a Manchester hotel since it was completed on the third trial day, was taken on a bus ride around the city and went for a walk.

Dr. Sander spent the day in his white-frame house in the village of Candia, relaxing with his wife, Alice, 37, and their three small daughters. Both Mrs. Sander and the doctor were expected to testify Monday, when the first degree murder trial enters its third week.
