New Hearing Device

Has No Receiver

Button In Ear

Chicago, Ill. -- Deafened people are hearing a new device that gives them clear hearing without making them wear a receiver button in the ear. They now enjoy songs, sermons, friendly companionship and business success with no self-conscious feeling that people are looking at any button hanging on their ear. With the new almost invisible Phonotone and Bellone you may free yourself from even the appearance of deafness. The makers of Bellone, Dept. 40, 1450 W. 19th St., Chicago 8, Ill., are so proud of their achievement they will gladly send you their free brochure (in plain wrapper) and explain how you can take this amazing device into the privacy of your own home without risking a penny. Write Bellone today.

Your Troubles Are Over

Medford, Ore., Mar. 5--The great trouble with a Davenport or Bed Davenport is that they are so uncomfortable, used as a bed or a davenport. The new Davenport that is now on the market for the first time has not one or two sets of springs, but is constructed with three complete sets of springs. They are padded with latex instead of cotton. Without a doubt the new Davenport is the very best bed davenport now offered.

This Super Davenport is built here in the Rogue Valley and is sold direct from the manufacturer to the public at wholesale prices. Greater savings are made when you buy direct at—
