Miami, Fla., Mar. 9.—(U.P.) The old guard was pulling for "defending champion" Gene Sarazen today as the Miami Beach open golf tournament got under way but the 48-year-old star himself expected a young up-and-coming player to cop the top prize.

The pudgy Sarazen, one-time holder of just about every title you can name, is the defending titlist in this tourney because it hasn't been held since 1930.

### Rangers And Red Wings Capture Victories In National Hockey Loop

**By United Press**  
The New York Rangers, back in third place in the National Hockey league, were singing the praises of Don (Bones) Raleigh today as they hustled homeward for a game with the league-leading Detroit Red Wings tonight.

The Rangers opened a suicide schedule of four games in five nights by clouting the Chicago Black Hawks last night, 4 to 2, at Chicago. The victory enabled the Rangers to climb past the Montreal Canadiens, who were idle.

### Interim Committee Confirms Choice To Education Board

Salem, Ore., Mar. 9.—(U.P.)—Dr. R. E. Kleinsorge of Silverton has been confirmed for a second nine-year term as a member of the state board of higher education.

But confirmation by the senate interim committee on executive appointments came only after Sen. Austin Flegel, Portland democrat, accused the board of ignoring the legislature's directive for distribution of \$6,000,000 for buildings on state university and colleges.

**Funds Transferred**  
In making the \$6,000,000 appropriation, the legislature had directed that \$2,500,000 be used for a new teaching hospital at the University of Oregon medical school in Portland. The board of higher education, with approval of the state emergency board and state board of control, took \$1,000,000 of that sum and used it for buildings at Oregon State college.

Flegel maintained throughout that the board should have put the whole sum of \$2,500,000 in the hospital, estimated to cost \$4,500,000 to \$5,000,000, but he voted with the other three committee members who attended the meeting for confirmation of Dr. Kleinsorge. Dr. Kleinsorge told Flegel he believed the hospital will be built just as fast with \$1,500,000 set aside for it as it would if \$2,500,000 were "lying idle." He said it will take six months to a year just to complete the plans. Federal funds and private gifts are expected to swell the total fund for the hospital.

**School Far Behind**  
Dr. Kleinsorge said the million dollars was added to the money to be spent on the Oregon State campus because the school was so far behind in its program of bringing its buildings up to

### Council Crest Cars May Rest In Museum

Portland, Ore., Mar. 9.—(U.P.)—Gordon Steele, president of the Portland Traction company, said today two "ancient" Council Crest street cars might end up in standard that some of its departments were in danger of losing accreditation standings. He said the agriculture, engineering and home economics departments were in this category.

Council Crest park and on the grounds of the Oregon Museum of Science and Industry.

Steele said the cars would represent specimens of the old, but revered, Council Crest trolleys. Buses replaced the last of the street cars within the city last week in order to allow a one-way grid system to go into effect in downtown Portland.

**APARTMENT PLANNED**  
Portland, Ore., Mar. 9.—(U.P.)—The Rose Plaza corporation today announced that it plans to build a \$475,000 six-story luxury-type apartment building in uptown Portland.
