After 11 years as pastor of the Assembly of God church in Kelso, Wash., the Rev. J. S. Manchester arrived in Medford Thursday to accept the pastorate of the Assembly of God church here, 11 Newtown street.

For the past six years the

Rev. Mr. Manchester has served as pastor of Section 5 of the Northwest District council of the Assemblies of God and has also been a member of the board of directors of the Northwest Bible college of Seattle. The northwest district consists of Washington and part of Idaho.

New Program Set By Station KYJC

A new type of audience participation program will start Monday, March 20, over KYJC, according to Jimmy Dunlevy, manager. The program will be sponsored by the Big Y market, and will be known as "The Mystery Shopper."

Some person shopping at the Big Y market will be selected by a secret committee. No mention will be made to the person selected, but the following day at 10:15 a.m. a description of the selected person will be broadcast during the Mystery Shopper program.

May Call
Should the person described recognize the description of herself or himself, he will have an opportunity to call the Big Y market within an hour and a half following the broadcast and identifying himself or herself as the Mystery Shopper. The Mystery Shopper for the day will be given a merchandise gift certificate of at least \$5.00.

Should there be no Mystery Shopper for that day, then an additional \$5.00 will be added to the amount offered by the Big Y market for the next program. Descriptions will be detailed

enough that the person being described should have no difficulty in recognizing whether or not he or she have been selected as the Mystery Shopper.

EXPERIENCE

RESPONSIBILITY FOR LIVES is one of the trusts the locomotive engineer shares with the Physician. Before the engineer is allowed to pilot a passenger train, he has to serve in minor capacities for years, to learn the function of all the parts of a locomotive, passes many rigid examinations, and is periodically re-examined. He must

be mentally and physically qualified to handle the job. Responsibility for lives is the thought behind the rigid requirements of entry in all Medical Schools, the long years of study, the years of internship and post-graduate work served under experienced Doctors, the thorough and difficult examinations before Medical Boards. All these precautions are solely for the public welfare, and are the result of Medical experience and Medical supervision. Do not tamper with responsibility for lives—keep political hands off Medical education and service.
